CHURCH NOTICES.

St. Joseph's Pro-Cathedral.

New Year's day is the feast of the Circumcision of Jesus Christ. It is a holy day of obligation for all Catholics not excused by the general reasons that the church allows. Masses will be said on Sunday at 8:15 and 10:30. After last mass there will be benediction. No evening devotions will take place in the church on New Year's Sunday is the octave of the feast of St. Stephen, the first martyr. Masses will be as usual and the Sunday school classes will be regular. At the high mass at 10:30 the choir will render the beautiful mass that was sung on Christmas day. On Sunday evening at 7:30 the vesper or official evening office of the church will be sung and there will begin a series of discourses concerning God Revelation, the Bible, the church and kindred theological and philosophical subjects. We are glad to have our friends with us.

Methodist Episcopal Church.

Sunday—Preaching morning and evening by the pastor; excellent music at the regular services by the large and well trained choir; always happy congregational singing. The morning sermon at 11 a. m. will be the first of a series of four sermons on the life of Joseph, covering the most thrilling chapter in the annals of Israel. A large company of representative authors once took a vote as to the best story, considered as a literary product in all literature. A very large majority voted for this story of Joseph. The first subject of the series is "Sold into Egypt, or the Fruit of Envy." At 7:30 p. m. the sermon subject will be "Proof of Miracles." This address is designed to strengthen faith in the working Christ, and bring men into a proper attitude toward him. All are welcome to a "homelike" church.

THE HEALING STRENGTH OF MINERAL WATERS

In Cases of Rheumatism, Gout and Nervous Breakdown, Dr. Mergel's

When recent investigations by eminent physicians, chemists and scientists of the health-mineral waters of the world, have demonstrated that mineral water drinking is a more effective means for the cure of organic diseases.

Paso Robles Hot Springs are at this time the center of interest to most investigators, as various scientific men have attracted the attention of the thinking world to these springs.

One of these eminent scientists, in his medical work, has found that the mineral water of the world which has been found in the south of Paso Robles, California.

Paso Robles Hot Springs are making a name for themselves as a great stomach trouble, nervous diseases, kidney trouble, and general breakdown, which proves almost beyond

question to medical men that there is some quality in these waters superior to any in this country and probably in the world.

It is also claimed for Paso Robles that the air conditions are perfect. It lies in a small valley protected by mountain ranges; is 729 feet above sea level and is not assailed by too much sea moisture or an abnormal temperature from the hot land winds.

This air condition is thought by some to have almost as much to do with its cures as the waters themselves.

The town like all health resorts, is filled with boarding houses of all kinds, so that every purse will be pleased. There are hotels for the rich, where any luxury may be had. Private baths for exclusive patrons who wish to be to themselves.

These springs have been known for centuries, for they were used by the Indian to cure his sick and later the Franciscan fathers performed wonderful cures here, but it is only recently that the really marvelous powers of these waters were made known to the world at large.

Nearly every form of organic trouble is treated at these hot springs, for the authorities welcome all except those who have tubercular or unclear diseases. For the man who suffers from overeating or from alcoholic excesses there is nothing in the world to equal a week spent at Paso Robles. It straightens him out with a rapidity that is wonderful, and the best recommendation is that they do away with the nerve-craving for stimulants because of their peculiar soothing effects upon the nervous system.

Truly speaking the study of Paso Robles Hot Springs is one which is giving the medical fraternity abroad and at home much interest, and is probably directing more attention to California than any other of her natural gifts to man.

A small book, neatly illustrated, has been recently published by the management telling the story of the Hot Springs in a most interesting manner and giving complete information. Send for it, either to Wm. McMurray, General Passenger Agent of the O. R. & N., Portland, Oregon, or Dr. F. W. Sawyer, manager, Paso Robles, California.
