WITH LIVE STOCK.

Oregon Holds Her Own in Stock Raising Industry.

Receipts at the Portland Union Stock Yards since September 15, at which time business was commenced, have been 25,026 cattle, 32,016 sheep, 31,328 hogs, and 509 horses. The ready buyers, given by the live stock raisers, and shipped of the Pacific northwest to the market established at Portland is an evidence of the utility and need of such an institution as the Portland Union Stock Yards. Established along open and competitive lines, this healthy young market will continue to grow until it will take its place among the big live stock centers of the United States.

The selection of Portland as a live stock center was made after due consideration by men whose success in the meat industry is a result of a lifetime in the business and the people of the northwest are to be congratulated that they have at hand a place where they can find at all times a ready sale for the animal products of their farms and ranches.

The approximate value of the 1,496 cars of live stock received since the stock yards began business has been \$2,235,090 and there have been several features worthy of note in the short life of the market. One of these has been the uniform high value of grass cattle which have brought prices that have been higher than at any time in the past. Portland has led the United States in the matter of high prices for hogs and the sheep market has maintained a high range. The sale of Christmas cattle on December 14 attracted a great many visitors and the prices obtained for the premium cattle were exceptional.

The railroads have granted a special reduction of 25 per cent for feeder cattle purchased at the Portland Union Stock Yards to be fed and returned to the market. This applies where the regular rate is \$22.50 and over and extends to a distance of 150 miles. This is an important consideration. Live stock shippers from S. P. & S. points en route via Portland instead of via Vancouver as heretofore.

The Transit House, a new hotel for the accommodation of shippers and visitors, has been opened at the stock yards and good accommodations are provided at a reasonable cost.

The Portland Union Stock Yards extends a New Year's greeting to the feeders, breeders and shippers of live stock in the Pacific northwest and invites their co-operation to the end that 1910 will be successful and prosperous to those who take advantage of its facilities for the sale of live stock and the demand that exists for greater supplies.

THE HEALING STRENGTH OF MINERAL WATERS.

In Cases of Dyspepsia, Rheumatism, Gout and Nervous Breakdown, Is Marvellous.

Upon recent investigation by eminent physicians, chemists and scientists it has been demonstrated that natural, earth flowing mineral waters are the most beneficial means for the cure of organic maladies.

Paso Robles Hot Springs are at this time the point of interest to most investigators, as recent occurrences have attracted the attention of the thinking world to these springs.

One of their chief points of interest to medical men is said to be that which proves that a pre-eminent action rests in the waters which flow from the earth at Paso Robles, California.

Paso Robles Hot Springs are making cures daily of rheumatism, gout, stomach trouble, neurotic diseases, kidney trouble, and general breakdown, which proves almost beyond question to medical men that there is some quality in these waters superior to any in this country and probably in the world.

It is also claimed for Paso Robles that the air conditions are perfect. It lies in a small valley protected by mountain ranges; is 720 feet above sea level and is not assailed by too much sea moisture or an abnormal temperature from the hot land winds.

This air condition is thought by some to have almost as much to do with its cures as the waters themselves.

The town like all health resorts, is filled with boarding houses of all kinds, so that every purse will be pleased. There are hotels for the rich, where any luxury may be had. Private baths for exclusive patrons who wish to be to themselves.

These springs have been known for centuries, for they were used by the Indian to cure his sick and later the Franciscan fathers performed wonderful cures here, but it is only recently that the really marvelous powers of these waters were made known to the world at large.

Nearly every form of organic trouble is treated at these hot springs for the authorities welcome all except those who have tuberculosis or unclean diseases. For the man who suffers from overeating or from alcoholic excesses there is nothing in the world to equal a week spent at Paso Robles. It straightens him out with a rapidity that is wonderful, and the best recommendation is that they do away with the nerve-craving for stimulants because of their peculiar soothing effects upon the nervous system.

Truly speaking the study of Paso Robles Hot Springs is one which is giving the medical fraternity abroad and at home much interest, and is probably directing more attention to California than any other of her natural gifts to man.

A small book, neatly illustrated, has been recently published by the management telling the story of the Hot Springs in a most interesting manner and giving complete information. Send for it, either to Wm. McMurray, General Passenger Agent of the O. R. & N., Portland, Oregon, or Dr. F. W. Sawyer, manager, Paso Robles, California.

For Men.—There is no better shoe made than the celebrated "J. E. Tilt," which is to be found at the Millikin Shoe Store. And for heavy wear there is nothing equal to the "United Workman Shoe." dt-f.
