Easter Jewelry

With the coming of Easter Sunday the spring fashions are clearly defined. Easter was originally, and still is, in certain circles, a great church festival, but the world of fashion takes opportunity to make it a time of display and the occasion for the showing of accepted styles in women's fashions. Consequently Easter Sunday has become the proper time for the display of the newest and latest fashions. Next in importance in the display of smart attire in gowns and millinery, the latest things in jewelry find their place, and play a most important part in the brave show of styles at this time. Those seeking the best and latest will find jewelry in our store that will please and are most appropriate.

WAR FOR EXPOSITION

San Francisco and San Diego in Bitter Strife.

EXPOSITION FOR 1915

San Diego Was Voted Out at the Conference of Cities Held to Decide Right of Preference for Exposition.

(Special to Evening News.) SANTA BARBARA, Cal., March 23.—Expecting that the Panama canal will be finished in 1915 the cities of San Francisco and San Diego have both planned to hold a world's fair in that year in celebration of the event. Before the big earthquake that pretty nearly put San Francisco out of the way as a competitor in this affair, the business men there had practically decided upon a fair to celebrate the completion of the big ditch, but following the disaster the matter was almost forgotten for a few years. In the meantime San Diego conceived the idea of an exposition in honor of the event. This brought the question to a focus and for several months the two cities have been disputing the right of each to the first place in this affair. The question was submitted to a conference of the cities of the state for adjustment, and in the conference just held in this city San Francisco was decided upon as the location for the exposition of 1915. San Diego, however, refuses to submit to the decision, and announces that she will go ahead with her own exposition as previously planned for that year.

JOHNSON IN THE TOILS

Court Intimated Witness Had Been Spirited Away.

NO TRIFLING ALLOWED

Pugilist Johnson Was Thought to be Responsible for Non-Appearance of State's Witness and Was Held.

(Special to Evening News.) NEW YORK, March 23.—During the trial of Jack Johnson, the pugilist, today, the possibility of having the grand jury investigate into the causes which led to the absence of the prosecuting witness were made known by the threat of Judge Mulqueen to have that inquisitorial body probe into the disappearance of the witness, who it is alleged, was attacked by Johnson. When the trial came up today and it was discovered that Pindar, the negro whom Johnson had beaten, was missing, the court was considerably annoyed and said: "This court is not to be trifled with, and will insist that the grand jury investigate into the cause of the disappearance of the prosecuting witness and others." The court ordered Johnson released on \$5,000 bail and continued the case. The pugilistic champion failed to get the necessary bond and was remanded to the custody of the sheriff until he could get the necessary security.

MR. CARO FILES SUIT.

Brought Against Hymen Wollenberg for Possession of City Property.

Simon Caro today filed suit in the circuit court to recover from Hymen Wollenberg possession of lots 1 and 2 in block 12, and lot 4 in block 29, which Caro alleges Wollenberg holds under a deed which was given, accepted and intended as a mortgage. This deed, Caro claims, was given Wollenberg to secure to him the payment of \$16,610.10, which Caro was owing Wollenberg, and that it was given purely with the intention of converting the property in trust to Wollenberg until such time as he (Caro) could redeem the same. Caro further alleges that he permitted Wollenberg to obtain possession of the property in controversy for the purpose of collecting and applying the rents in satisfaction of the mortgaged indebtedness. He declares that Wollenberg has collected the rents and has failed to apply the same in payment of the mortgage; that Hymen has, in fact, carefully deposited such rentals in his trouser's pocket. And Simon believes, and therefore alleges, that the amount which Hymen has so deposited in his own trousers' pocket is equal possibly to the amount of the mortgage indebtedness.

Wherefore Simon preys the court

for a decree declaring the deed a mortgage, and granting him the right to redeem the same.

MAYOR-ELECT PRESTON.

Expresses His Views Concerning Myrtle Creek's Future.

Hon. R. A. Preston, who was elected mayor of Myrtle Creek last Monday over F. B. Rutherford, editor of the Mail, in a hotly contested election, and Hon. R. F. Smick, who was elected treasurer, are in the city from Myrtle Creek today. These gentlemen are veritable dynamos of civic enthusiasm and are very optimistic about the future prosperity of Myrtle Creek. Mr. Preston says that the Myrtle Lumber company, of that place, which has been closed down for the past two years, have just installed a lot of new machinery and are now ready to begin operations. The company will employ a force of 45 to 100 men to run the new plant. And the Continental Mining company, which has a rich quartz mining property about 9 miles from town, on the south of Myrtle Creek, has just completed a big \$50,000 cyanide plant and will now resume operations on an extensive scale after an idleness of three years. According to the gentlemen the atmosphere around Myrtle Creek will soon be vibrant with the hum of machinery and the bustle of "things doing."

Edwin Weaver, one of Myrtle Creek's substantial farmers and business men, was a visitor to the city today. Ed. came down to attend to some business matters at the county court house. While here he called at the News office to pay his respects and get his name on The Evening News' subscription list. Myrtle Creek and vicinity is prosperous, Mr. Weaver says, due to the fact that there are some wide-awake boosters in the section and also the city is situated in one of the most fertile spots in the county.
