TOILET SOAPS YOU cannot be too careful in the choice of a soap for washing the skin. Some people seem to think that "any old soap" is good enough so long as it will lather. This is a great mistake. The use of impure, poorly made soap is one of the chief causes of rough, chapped skin, especially among children. Many of the soaps offered and sold for toilet use are made from rancid fats and are scented with rank smelling chemicals and oils to cover their true character. THE value of a pure toilet soap in keeping the skin in a clear, healthy condition cannot be over estimated. A good soap should be made from pure wholesome fats properly saponified and perfumed only with antiseptic healing oils, and balsams. A wash with such a soap gives a delightful sense of invigoration and leaves the skin soft and firm, very different from the burning, smarting sensation caused by impure, poorly made soaps. OUR toilet soaps are selected with great care. They are made from pure, wholesome fats and are delicately perfumed. They contain no excess of free alkali, so injurious to the skin, particularly the skin of children. We have given the subject of Toilet and Medicinal Soap a great deal of study and feel confident to advise you regarding the choice of soaps, particularly those best suited for persons with tender skin and for children. Our best soaps for general use cost 10c per cake or 25c per box of 3 cakes. We have more expensive soaps and also cheaper kinds at 5c per cake, 25c per box of 6 cakes of ABSOLUTELY PURE SOAP.
