The jury in the case of J. A. Woodruff vs The Southern Pacific Company retired shortly after 4 o'clock yesterday afternoon, and returned an hour later with a verdict in favor of the defendants. Woodruff brought suit against the rail road company to recover the sum of \$512, claiming that through the negligence of Southern Pacific trainmen three of his most valuable horses were killed while crossing the track near Shady Point. During the course of trial the Southern Pacific Company proved beyond doubt that the engineers as well as other members of the train crew exerted every effort to avoid the accident, but without avail, the horses being struck by the locomotive as they crossed the track. The attorneys for the defense endeavored to show that the company's employees were negligent, but in this they failed, the testimony tending to substantiate the theory of the defendants' attorneys that due caution was used in an effort to prevent the disaster. The case will probably be appealed to the Supreme Court.
