HOW TO GRAIN IN MISSION

My mission Graining Process gives the dull stained hardwood effect over varnished or painted woodwork, furniture, etc. without the expense of removing the old finish. Entire cost but 2c per square foot and any one can apply it.

You can't realize how handsome a finish this makes until you see samples at

while we have actually installed 60 posts or 4 1-2 posts more than has been subscribed. To meet this deficiency a committee will probably be appointed to solicit subscriptions for the remaining posts, this amount will enable us to pay the Walsh Co. in full and if any small balance should be left over it could be placed in the maintenance fund for the renewal of burned out lamps. Respectfully submitted, C. B. CANNON.

NOTICE TO CONTRACTORS.

Notice is hereby given that the school board of District No. 4, Douglas county, Oregon, will receive sealed bids for the construction of a school building at Riverside in said district, as per plans and specifications on file with the clerk of said district, Douglas National Bank building, Roseburg, Oregon.

NEW FIRELESS COOKER HERE
Costs Half of Others and Weighs Least ALL METAL
The best Fireless Cooker yet brought to Roseburg is the National. This is constructed on a different idea from the old box idea. It is a metal cylinder with one chamber that takes two pots, and has the same capacity as any two chambered cooker. As a result this cooker is the lightest and cost's half of others.
The Fireless Cooker saves the wood bill in both winter and summer. It makes a little bit of heat cook a whole meal by holding it in the food and not allowing it to evaporate. On the same principle a dish of ice cream can be put in a cooker, and will not melt, as the cold can not get out or the air and heat in. Roseburg people who run Fireless Cookers, say that they give the food a better flavor and makes it more tender. Since it saves money, discomfort, COME AND INVESTIGATE OUR COOKER.
