**MARSHFIELD RACE MEET.**

Fourth of July Events Expected to be  
Best Ever.

MARSHFIELD, June 20.—The  
Prospect for the July race meet at the  
Marshfield fair grounds are most  
flattering, and it is expected that  
some of the best contests will be  
pulled off here that have been seen on  
the Bay in many a day. Horsemen  
throughout this section are taking a  
keen interest in it and some good  
harness horses, as well as jumpers,  
will be entered. The attendance,  
judging from reports from various  
places throughout the county, will be  
large.

The track is being put in excellent  
condition, and according to present  
indications, the only thing needed to  
make the meet an unusually success-  
ful one is good weather at that time.

One of the fastest harness horses  
in the Pacific Northwest is expected  
here soon for the races. Messrs  
Norton and Powers have been in-  
formed by Frank Fram that his "Ray  
o' Light" with a record of 2:08 1-2  
will be here sure.

Among those now quartered at the  
track and working horses is M. H.  
Nay. He is training his four-year-  
old, Charley Foster, L. D. Kinney's  
Flavora and John Yoakam's Green-  
law.

Dan Starr is working Belle N., Ma-  
bel S., and Ward Bros.' Wankee.

F. P. Norton has under his care  
and supervision Billy Murry, Head-  
light, Yo San, O. J. Seeley's McBeth  
and Kinney's Croseron.

A. M. Knapp is here from Emery-  
ville with a good looking horse, Con-  
tra Costa.

**ABOUT RAISING COFFEE.**

Thinks Douglas County Would Pro-  
duce a Crop.

In a letter to a friend in this city  
R. W. Fewn, formerly of Roseburg,  
but at the present time residing in  
Sao Paulo, Brazil, states that since  
he has been in the famous coffee cen-  
ter he has made a close study of  
the soil in that locality and that he  
has come to the conclusion that it  
is similar to Douglas county land.  
He says that lying several feet under  
the Douglas county soil is a variety  
of rock known as diabase, which is  
exactly like the formation of the land  
where the greatest coffee in the world  
is grown.

In the tropical countries where  
coffee is raised to a good advantage  
the weather never gets colder than  
55 degrees, but it is the opinion  
of Mr. Fewn that with the aid of the  
smudge pot, coffee could be raised  
in Douglas county, just as well as in  
Brazil. The temperature here is  
so warm that smudging would sel-  
dom be necessary.

Many people of Roseburg will re-  
member Mr. Fewn, who lived in this  
city for about two years several  
years ago. Since leaving this city he  
has been in charge of the construc-  
tion of a pipe line which, now that  
it is completed is used for carry-  
ing oil from the Atlantic to the  
Pacific. After completing this work  
Mr. Fewn was appointed professor of  
geology in the University of Sao  
Paulo, which situation he still holds.

Mr. Fewn says that there is about  
150 square miles of land lying on  
all sides of Roseburg which is under-  
laid with diabase and that in his  
opinion all of this could be utilized  
for coffee growing. He is so anxious  
to learn whether or not his theory  
is correct that he offered to send  
some of the plants to his friend who  
will see what he can do with them.

Miss Murrel Williams recently re-  
turned from Portland where she had  
a very enjoyable visit with her sister  
Mrs. Dixon.

**CLASSIFIED ADVERTISEMENTS.**
