

A VERY BUSY MONTH

Publicity Manager Answers Many Inquiries

EASTERNERS SEEK OREGON HOME

Men With Money Expect to Invade the Umpqua Valley during the Coming Summer—Many Ask for Positions.

During the month of December 1910, the publicity department of the commercial club sent out 3525 pieces of mail, according to Manager Schlosser. Letters of inquiry were received from 40 different states, which is the highest number of states from which inquiries have been received during any one month. The states sending in the greatest number of inquiries were Washington, Oregon, California, Illinois, Iowa, Idaho, Pennsylvania, Texas, Ohio and Minnesota, in the order named. About one-third of the letters contained general inquiries; about one-fifth indicated that the writers were interested in general farming. The inquiries for fruit lands and homestead lands were about equal. The same number of inquiries received in regard to poultry raising, hog raising and timber lands. The other inquiries dealt largely with dairying, mining, truck gardens, grape growing and alfalfa growing. A number of inquiries were received in regard to railroad lands, and three different persons intimated that they had purchased some Oregon & California Railroad land at \$400 per quarter section, making payments down from \$75 to \$125, the balance to be paid when the deed was ready for delivery. A considerable per cent of the inquiries came from farmers, most of them men who have some capital and who can establish themselves readily on Umpqua Valley ranches. During the month's correspondence there were only two who asked for definite positions, and four of the correspondents stated that they were willing

to do any kind of work that was honorable. Inquiry was made as to the opportunities for opening an exclusive tea and coffee store, a newspaper, banks, real estate offices, brick yards, hotels, telephone exchange, factories, electric light plant, five and ten cent store, barber shop, plumbing shop, abstract office, undertaking establishment, fence factory, and rooming house. Several lawyers inquired as to the opening here in their line, three blacksmiths, one band director, two architects, a number of carpenters and a florist. Two different men in Illinois are investigating the available wood in the vicinity of Roseburg with the intention of going into the furniture manufacturing business if the prospects justify them in doing so. Two state that they have money to invest in any good location, and two others ask in regard to the opportunity for a business opening of any kind. A friend in the advertising business offers to make a moving picture showing Roseburg and some of the principal features of the Umpqua Valley at a very reasonable price—the film is to cost \$5,000, and to be exhibited one year for the sum of \$1300 additional. Several have mentioned the fact that they have been attracted to Roseburg because Billy Sunday bought a farm near here. One man gives his address as "County Poor Farm" in a certain county in Texas, and another man in Oklahoma gives three different addresses in one letter. Although there are no special rates in effect at the present time, the procession of homeseekers has not ceased, and there has not been a day during the month that strangers have not called at the publicity office asking for information of various kinds. During the month letters were received from eight people who stated that they were making preparations to move to Roseburg. During the last six months the commercial club has mailed out 15,450 pieces of mail. This includes 2429 letters, 13421 newspapers and post cards, and 11,700 books. The month of December was the heaviest month of the six, the month of August being second. The records in the office show that 3187 pieces of mail were sent out in June, 1434 in July, 3066 in August, 2649 in September, 1879 in October, 1719 in November, and 3525 in December. JAP SPIES ARE ACTIVE

Bought All the Maps There Were in Manila

TAKE ISLANDS AT PLEASURE

Rebels Preparing for Renewed Activity in Mexico—Senator Elkins' Friends Much Alarmed Over His Condition.

(Special to Evening News.) WASHINGTON, Jan. 2.—It is asserted here that naval and military authorities in the Philippines knew last September that Japanese spies were active in the islands. This statement was made today by Assistant Attorney General Villamor of the Philippine government, who says that last September two Jap spies were arrested, having in their possession maps of the islands, showing the fortifications and Manila Harbor. Washington was cognizant of the arrests, but owing to the fact that there was no law covering the situation, the spies were released. There is no doubt but what the Japs are familiar with the details of the fortifications. Several months ago nearly every map of the islands in the stationery stores of Manila were sold to Japanese within a week. More than this it is alleged that a Japanese official recently remarked that Japan could take the Philippines whenever they wished. HONOLULU, Jan. 2.—Conditions are thought by the Mexican government to be improving in Western Chihuahua, and the insurgents are said to be fleeing to the Sonora hills, according to the reports from the field today. Whether they are retiring to mobilize for the purpose of renewed activity in Chihuahua is unknown. The fact that Sonora is practically unprotected gives rise to the opinion that the insurgents are planning an attack there. Frequent reports are brought that rebels are crossing into Mexico from Arizona, and three companies of United States

troops are enroute to the border to prevent trouble.

Senator Elkins Low. WASHINGTON, Jan. 2.—Although he is reported very weak today Senator Elkins has recovered from the attack of hiccoughing that seized him three days ago. Despite the favorable bulletin the friends of the senator are alarmed, and it is feared that his condition is serious.

Hoxie's Body Cremated. PASADENA, Cal., Jan. 2.—According to the present arrangements, Hoxie, the dead aviator, will be buried tomorrow. The Wright Company, represented by Roy Knabenshue, has charge of the funeral. It is probable that the body will be cremated and the ashes interred in the Pasadena cemetery.

Moissant Buried at New Orleans. NEW ORLEANS, Jan. 2.—Thousands visited the receiving vault at Metairie cemetery today, where the body of Moissant, the aviator who was killed last Saturday, was laid temporarily to rest yesterday. The body will soon be removed and taken to Chicago for permanent burial, in which city the dead aviator was born. The services yesterday were simple and Moissant's comrades were the pall bearers.

Democrat at Helm. BOISE, Jan. 2.—Without the least semblance of a ceremony, James Hawley, governor-elect of Idaho, was sworn in as the state's executive today. This is the first time since 1901 that Idaho has had a democratic governor. Both the house and the senate are safely republican and convened at noon. After perfecting organization an adjournment was taken until Tuesday. Charles Storey of Ada county, was elected speaker.

The county court will meet in its regular January session Wednesday morning, and indications are that several days will be consumed in disposing of the accumulation of business. Among the important matters scheduled for consideration is that of drawing the circuit court jury list for the year 1911, appointment and checking up of road supervisors, and making the general tax levy. As a rule the January term of the county court is the heaviest of the year, and the approaching term will be no exception.

IN GRIP OF BLIZZARD

Storm Rages From Rocky Mountains Eastwards

MUCH SUFFERING AMONG POOR

Extreme Cold Prevails In Middle West—One Man Frozen to Death at Fargo—Soldiers Join Revolutionists.

(Special to Evening News.) DENVER, Jan. 2.—The blizzard beginning on New Year day is still raging through the Middle West today, and blinding snow falling before a heavy wind, accompanied by extreme cold has the entire country from St. Louis to the Rocky mountains in its grasp. The storm is sweeping with great force over Montana, Wyoming, Nebraska and the Dakotas, and all traffic on railways is practically at a standstill. Telegraph and telephone wires are down. Throughout the entire area of the storm swept section the temperature has dropped from ordinarily mild weather to extreme cold. In Kansas the mercury dropped fifty degrees, and in many other places from twenty to thirty degrees. In Nebraska points this morning the mercury registered ten below zero. Railway trains are reported stalled in a snow bank near Sioux City, Iowa. The cold was intense at Denver today, being 28, below while at Cheyenne it was ten below, and at Omaha 15.

Suffering in Chicago. CHICAGO, Jan. 2, 1911.—The blizzard that is raging today is unparalleled in recent years for severity, and is moving eastward through the Central West leaving stalled railway trains and prostrated telegraph and telephone wires in its wake. The storm is hanging over Michigan and it is expected that the chill winds will carry it onward to the Atlantic states before morning. The cold in this city is intense and there is great

suffering among the poor people. One death has been reported at Fargo, North Dakota, where William Thomas froze to death, the cold being 18 degrees below zero.

Start Lorimer Fight. WASHINGTON, Jan. 2.—A vote on the resolution declaring the seat of Senator Lorimer vacant is assured in the senate according to indications today. If Senators Beveridge and Frazier submit a minority report on the Lorimer investigation the resolutions declaring the seat vacant will probably accompany the report. If such a resolution is not presented by the minority Senator Borah, of Idaho, will submit one, and all senators will be forced to roll on record in the matter through roll call on the resolution.

Look for Easy Victory. TEGUCIGALPA, Jan. 2.—Honduras revolutionists under the leadership of Lee Christmas, an American soldier of fortune, and former President Bonilla, are invading Honduras today and have reached Puerto Cortes, according to advices reaching here today. One section of the revolutionary army is marching toward Tegucigalpa, and the rest of the troops will follow later in a more northerly route. Entrance to Puerto Cortes was affected without even a skirmish, the government troops, according to the information, having joined the revolutionists. The Bonilla forces are confident of an easy victory over the federal army.

ATTENTION W. O. W.

Very important meeting tonight. A matter which affects every Woodman is to be voted on. Better be present than sorry. Installation tonight also.

B. J. Bovington, of Oakland, is spending the day in Roseburg attending to business matters and visiting with friends.

E. Nelson, a Southern Pacific employe, has returned here after a two weeks' visit with friends and relatives at Portland and Walla Walla. He was accompanied by his wife.

BORN. KELLHER—To Mr and Mrs. W. C. Kellher, of East Roseburg, on Sunday, January 1, 1911, a girl.

You'll Miss a Good Thing if You Don't Get in on the Rexall Rose Deal

REXALL ROSE BUSHES FREE To All Customers For "Rexall Remedies"

During January and February, 1911 with every purchase of REXALL GOODS, amounting to One Dollar, we will give a Rexall Rose Bush. These bushes are all two years old, Class A, Field Grown, and will bloom the first season. They have been "tried out" in this city and are superior in every point to most of the high grade roses. The Rexall Rose ranks with the Maman Coshet, Mme. Caroline Testout and Frau Karl Druski in quality and has been a prize winner in many exhibitions. It is easy to buy a dollar's worth of Rexall Goods—there are over 300 remedies—one for each human ill.
