**PEARY'S CLAIM APPROVED.**

The North Pole Explorer Recommended for Promotion.

WASHINGTON, Jan. 12.—Captain Robert E. Peary, Arctic explorer, today was formally approved by a sub-committee of the house committee on naval affairs.

The sub-committee at an executive meeting, from which the two principal opponents of Captain Peary, Roberts and Macon were absent, adopted a favorable report to the full committee on the Bates bill, which extends the thanks of congress to Peary and retires him with the rank of rear admiral in the engineer corps of the navy.

Captain Peary is 53 years old, and the action, if approved by the full committee and agreed to by the senate, will place him immediately upon the retired list with about the same pay—\$6,000—as he is receiving as a captain upon the active list. The report probably will arouse a lively discussion in the house.
