 The recalling of Mayor Gill, of Seattle, must be contributed largely to the fact that the state of Washington has the right of suffrage extended to the fair sex. Podistal lavatory—something dandy—now on display by Gaddis, the plumber.
 At the reigns of government, partly at least, with those of us who, when it becomes necessary to right a wrong by removing detrimental obstructions, are not hedged about by petty limitations, and who will vote to further the right, as far as permitted to see the right and who will not be governed by the ill will of the howling minority in face of the fact that they may understand the true merits of the case and vote in favor of rotten policies and corrupt men simply because it would be unpopular to vote otherwise. Give the women the ballot and the women will give to the land that which it will be impossible to bring about by ballot box legislation so long as the voters allow themselves to be governed by popular sentiment and money, while justice and right are left to wander as unknown quantities and considered to be fit for nothing and of no use to any one save a few plutocrats who are able to purchase justice in case they are confronted with any charge, simply because of the lack of sincerity on part of a great per cent of our voters. This was not the case with Mayor Gill, but we fear the result would have been different had not the fair ones been allowed a voice in the recall. Wake up, men, if you really want your state cleansed of its rottenness, vote to extend the ballot to your wives, mothers daughters and sisters.

 Early in the week the neighbors were much disturbed to learn that an aged gentleman, father-in-law of Mr. Norton, of Sutherland, had wandered away the evening before and had been out all night. Several assisted in the search for him. He was found somewhere near the Golf place. The night was a cold, frosty one and the old gentleman must have suffered severely.
