TEST HOME RULE.

Cottage Grove Would Force Filing of Petition for Election.

EUGENE, Or., March 1.—In order to test the new home rule liquor law as it applies to cities in Lane county, which is dry, a petition for a writ of mandamus was filed in the circuit court today to compel the county clerk to file a petition recently received from Cottage Grove asking for a local option election in that city.

The county clerk refused to file the petition after it was received on advice of Cottage Grove people, who wished to test the law as it would apply to cities in this county and the mandamus petition followed as a result as soon as it could be prepared.

OREGON WAR CLAIM KILLED.

Technicality Defeats Hawley in Fight for \$193,543.

WASHINGTON, March 1.—Hawley offered an amendment to the general deficiency bill, at midnight last night in the house, authorizing payment to the state of Oregon of \$193,543 in satisfaction of the state's Civil War claim. A point of order was raised against the amendment by Fitzgerald, of New York and was sustained.

Hawley made a determined fight to have his amendment adopted and read the findings of the court of claims, holding the claim to be valid, inasmuch as the court of claims merely returned findings and not a judgment. It was held that the amendment could not properly be included in the deficiency bill.

They were ridiculous. And they came from men in Kansas City, in New York—everywhere, from old and new acquaintances and from total strangers."

Mrs. Cudahy denied that she had made any move toward reconciliation with her husband, but she also denied a published statement that she would consider no reconciliation.

He has few equals. He reaches the heart, but for the most part he reaches the heart through the head. He is no superficial clasp-trap evangelist, but the gospel he preaches and the religion he commends are intensely fundamental, meaningful, and inspiring.

The man or woman who will heed his instruction fully will be converted all over, and saved from sin for a few weeks only, but saved from sin and saved to God for a lifetime and for all eternity.—Troy (Kansas) Republican.

Dr. Lempkin closed a great meeting at Troy last Sunday, and is now on his way in Roseburg where he will begin the campaign at the Baptist church next Sunday.

LUMBERMAN WRATHY

Ask President Taft to Vote Forestry Bill

NO COMPROMISE IS ANTICIPATED

Republicans Fail to Compromise With Democrats, and Will Fight to the End—Night Sessions Predicted.

RESOLUTIONS ADOPTED.

WASHINGTON, D. C., March 2.—Stirred by Pinchot's appeal, the lumbermen today unanimously adopted resolutions asking President Taft to veto the entire bill. The bill is now in the hands of the committee.

(Special to Evening News.)

WASHINGTON, D. C., March 2.—Urging the lumbermen of the United States to bring sufficient pressure to bear to insure a defeat of "jokers" in the national forestry bill, Former Chief Forester Pinchot today charged Senators Heyburn, of Idaho, and Carter, of Montana, of being the prime movers in the scheme.

In an address at the convention of the Lumber Merchants, he declared that Heyburn and Carter were attempting to pass amendments which would cause complete abrogation of the country's forestry policy. Further he alleged that the Heyburn amendment, which provides that all land where there is growing less than 4,000,000 feet of merchantable timber in contiguous areas, would practically prevent the practice of forestry.

No Compromise Anticipated.

WASHINGTON, D. C., March 2.—Republicans in the senate today abandoned all hope of compromising with the democrats on the tariff board bill, and consequently are determined to fight the issue to a finish even if all night sessions are necessary. The latter decision was reached after the democrats evasively answered overtures of Hale for an agreement to vote on the bill tomorrow noon.

Terrible Epidemic.

ST. PETERSBURG, March 2.—It will take desperate work to prevent the spread of the plague from China

into Europe and the Western world, according to Professor Julius Beckman, of Vienna, who has just arrived from the Manchurian plague district.

He said: "People of the occident cannot imagine how terrible the epidemic is. In Manchuria whole villages have been swept away—not a survivor left. The epidemic will reduce the population of the country one third to one half. Sometimes a village has been left without an inhabitant in five hours. That is what pneumonia is like."

"No one can answer whether the epidemic will spread to Europe. It is spreading like wildfire in Manchuria and it will require desperate work to keep it from reaching Russia and maybe further west."
