AUTOMOBILE CLUB.

Very Interesting Meeting Held Last Night—Officers Elected.

The most enthusiastic meeting of the Roseburg Automobile Club ever held in this city occurred at the commercial club rooms last evening, at which time numerous matters of interest to local automobilists were discussed at length. The meeting was unusually well attended, everyone present evidencing disposition to assist in carrying out the plans of the organization to the letter. The first business transacted was that of electing a full quota of officers for the ensuing year, the following well known gentlemen being selected:

- A. Salzman, president. O. C. Baker, vice-president. J. W. Perkins, secretary. W. H. Fisher, treasurer.

The above officers, together with Dr. E. B. Stewart, comprise the board of directors who will serve for a period of twelve months.

Concluding the election of officers the matter of installing signs at the intersection of all county roads was considered thoroughly. A number of those present addressed the assembly on the subject, and in each instance they favored the installation of the road signs without delay. In time not considerable difficulty is said to have been encountered by strangers passing through Douglas county, and frequently they have become confused with the result that they have journeyed miles, only to ascertain that they were on the wrong road.

Inasmuch as it was the general expression that the work of emphasizing the signs should commence at once the following committee was appointed with instructions to go ahead and order the necessary placards, and superintend the installing of the same: George E. Houck, Roseburg; G. W. Burnette, Myrtle Creek; and Grant Taylor, Winchester.

Another matter which furnished food for a lengthy discussion was that of straightening the county road at a point where it crosses the Southern Pacific railroad tracks a short distance south of Winchester. At the present time this road is in the shape of an "S", and is not only considered dangerous to the occupants of automobiles, but is regarded a menace to the neighbors. The following committee was appointed to investigate this matter and employ such means as necessary in the direction of its improvement: George E. Houck, Roseburg; Grant Taylor, Winchester; and J. W. Campbell, Roseburg.

A discussion then prevailed relative to reducing the grade on Roberts hill, about nine miles south of the city, and finally a committee was appointed to investigate the existing conditions in that vicinity and ascertain what can be done relative to improving the same. It was argued that the road in the vicinity of Roberts hill was almost impassable, while the grade is sufficiently steep to tax the more powerful machines to their full capacity. The following committee was appointed to look after this matter and report their findings at the next regular meeting of the association: G. W. Burnette, Myrtle Creek; A. C. Seely, and O. C. Baker, Roseburg.

A committee consisting of O. C. Baker, Dr. A. E. Sother and George E. Houck was appointed to confer with the members of the city council relative to regulating vehicle traffic within the corporate limits of the city. It is the desire of the club members that a stringent ordinance be passed in order to avoid all possibility of accidents. It is probable that the matter will be brought to the attention of the council at the next regular meeting of the council to be held Monday evening.

A committee consisting of H. R. Fanchey and W. H. Fisher was appointed to direct the enrollment of new members. It is the intention of the club to increase the present membership materially during the coming summer, predicting that there will be at least 50 qualified members by fall.

In order that monthly meetings may be held, the by-laws were changed, and hereafter meetings will be held on the first Tuesday of each month.

Inasmuch as the club has no available funds with which to improve the roads above mentioned, it is their purpose to appear before the county court in a body and request that a portion of the money already raised from the special taxes be applied in remedying the existing evils.

Everybody is cordially welcome to attend and even urged to be present, and enjoy the time with their friends.

A SATISFIED FARMER.

Compares Taxes Here With Those in Jackson County.

J. G. Hodges, of Scotts Valley, who came up from Jackson county last fall and bought a farm here, is in the city today paying his taxes and looking after business interests. In speaking to a News representative of his taxes, Mr. Hodges said that property taxes were so much lower in this county than they are in Jackson county that he feels that he was hardly contributing his quota in paying according to the assessment made by Assessor Calkins. Taxes on farm lands in Douglas county, according to the statement made by Mr. Hodges, are at most only about one-third of what they are in Jackson county. "In all my life," said Mr. Hodges, "I never paid a tax with so much pleasure as I did that levied on my property in this county. This is my first year in Douglas county, and you may rest assured that I shall urge my friends in the Medford country to sell out and come up here and locate. The climate is better here, lands are as good as anywhere in the world, and the prices are much lower than in other places, while taxes are most reasonable. Why should I not urge my friends to come?"

"COMFORT TO UGLY PEOPLE."

Subject of Lecture to Be Given at Pine Grove March 17.

On the evening of Friday, March 17, Rev. E. O. Eldridge will deliver a lecture at the Pine Grove church on the subject of "Comfort to Ugly People," and the proceeds of the entertainment will go into an organ fund for the church. Admission to the lecture will be free, but an offering will be taken for the purpose mentioned. Pastor Eldridge, of the M. E. church in Roseburg, says that he personally gets so much comfort from the subject given that he considers it his duty to tell other people about it. It is therefore suggested that all who desire to hear this thrilling lecture, and at the same time contribute to a worthy cause, attend the affair on March 17. While it is generally conceded that there are not a great many particularly ugly people in the Pine Grove neighborhood or along the Deer Creeks and their tributaries, still everybody will want to hear what is said about those who are ugly. Don't forget the time and place.

The common council met in regular session last Monday evening and disposed of various matters of interest, among which were the considering of a petition for calling a special election for the purpose of changing the city's charter and the framing of an ordinance relative to certain sized telephone poles inside the city limits. After due deliberation it was decided to call a special election, after due notice, for the purpose of voting on the change of charter. The telephone ordinance was much discussed and it was finally agreed that all telephone poles within the city limits should be

Carpets, matting, linoleum, and rugs of every description are handled by us.

twelve inches in diameter and twenty feet in length. As the city has experienced considerable trouble in the past on account of telephone wires being placed on small poles. The suggested change in the size of telephone poles is a good one, but it appears to be a little on the extreme order as very few telegraph or telephone poles are twelve inches in diameter. We are inclined to think that a 10-inch pole would be large enough for all practical purposes for some time to come. But we're here to boost every improvement, and if the city "dada" say 12-inch poles, its O. K. with Mrs. McGinty. MRS. MCGINTY.

Prior to March 15 a three per cent reduction will be allowed, as by law specified, if taxes are paid in full. It is understood that many have an idea that this rebate is obtainable at any time when taxes are paid in full, but the law expressly states that parties wishing to take advantage of such rebate must pay in full before six o'clock on the afternoon of March 15.
