Entered as second-class matter November 5, 1910, at Roseburg, Ore., under act of March 3, 1879.

TUESDAY, JUNE 20, 1911.

Oil is holding up in price wonderfully, particularly since the recent supreme court decisions. No one so far has been hurt but the consumer. And he is doing a lot of hard thinking.

Sugar is going up at about 20 cents per hundred the week. The berry and fruit season is here and the trust needs the money. Meanwhile the trust is being "investigated" at Washington.

The recall law is looked upon by many officer holders as a drawback to sound government. Naturally such are not expected to see much good in it. The people, who forced the enactment of the law, are pleased to look upon it as being very desirable, since through it they are privileged to hold tightly the reins of government. The judiciary is no nearer perfection than the lesser incumbent, and the people are no nearer to expect that branch of the public service from the operation of the law. The law is good, and only inefficient servants need fear it.

It is gratifying to the property owners in this city, especially those effected by the large amount of street paving under way and various other matters yet to be considered which vitally interests the taxpayers of Roseburg, that satisfactory arrangements were made at last evening's session of the city council whereby Recorder Orcutt will continue to look after the important duties attendant to the recorder's office. His resignation at this time was not looked upon with favor by the city council, they no doubt realizing that a change might incur legal difficulties that would be hard to overcome and result disastrously to the present and future work to be carried out by the city in the way of improvements. Under Mr. Orcutt's supervision the recorder's office has a record for efficiency that has never heretofore been equalled.

Attorneys in Switzerland refuse to try a divorce case until an effort has been made to bring about a reconciliation between the dissatisfied husband and wife. The applicants are requested to appear before the judge, with or without their lawyers, and in no less than 20 per cent of the cases they go away determined to try life together again. When one of the couple does not attend the conference, it means that the affair is to be fought out. No doubt there are innumerable causes of reconciliation in the United States for which the good judgement and persuasiveness of "counsel" is responsible. And in the majority of cases some real community of interest, some shadow of mutual concern, survives even the wreck of many miserable years, to make reconciliation endurable. It is quite one thing to be intensely annoyed at or angry with a life-partner, and another to think of permanent separation. If more attorneys would make it their first business, in dealing with divorce cases, to labor for a reconciliation, the world would be spared much corroding regret.

MR. FARMER.

Why pay a peddler \$35.00 to \$50.00 more for a buggy or hack, when you can buy a better job for that much less money from your home dealer. If you buy from a peddler he sells you today and is gone tomorrow. He guarantees lasts just as long. He has to get a big price for his goods, as he is at a big expense all the time, and if he takes your note, he makes the price enough so he can sell it to a bank at a discount of from 15 to 20 per cent.  
Do these "peddlers" pay any taxes to help build and keep up your roads? Do they buy any of your produce? Are they any benefit to you or your county or state?  
Thinks it over, and if you are going to buy a buggy, hack, or wagon get our price first.
