TWO MEN ARE BADLY INJURED

Officers Spirit Men Out Of Jail In Order to Avoid Lynching—Accused Of Murdering City Officers.

(Special to The Evening News.) THE DALLAS, July 15.—The disappearance of L. D. Ackerman, on Monday, has caused a great uneasiness on the part of his family and friends, and it is the general belief that he was murdered, and his body thrown into the Columbia river.

Two Men Injured. OAKLAND, Cal., July 15.—Following a quarrel over the payment of a debt, George Eucher, a conductor, fatally wounded Harry Leiton, a street car inspector, and J. Auchanbaugh, a bystander. The trouble occurred on the street today. Eucher killed himself later and it is generally believed that he was insane.

Afraid Of Lynching. BURNSIDE, Ky., July 15.—Deputy Sheriff James Ellis and John Helton were spirited away from the Somerset jail today to prevent their lynching for killing Magistrate Beatty and Constable Heath. Ellis and Helton shot the officials dead when they appeared in court to answer minor charges.

George Crane, of Looking Glass, was a business visitor for a few hours today.

FOOTPRINTS ARE DISCOVERED

Rainer Couple Thought To Have Been Murdered By Same Man Who Slew The Hill Family In Portland.

PORTLAND, Or., July 15.—Slaying of the Hill family here in June and the assassination of Mr. and Mrs. Archie Coble, in Rainer, Wash., last Monday, are connected by Dr. G. A. Cathey and his brother, C. C. Cathey, who investigated both cases. Footprints of the murderer are identical, the width of his hand as shown in bloodstains is the same and both crimes were committed with striking similarity.

Tracing of bloodstains by the Cathey brothers at Rainer yesterday led the investigators to the room of Swan Peterson, a section hand, where other bloodmarks were found. Peterson was arrested at Meeker Junction yesterday, and is held at Tacoma for the murder of Coble and his bride of a year.

Evidence Awaits Call. Cathey brothers are awaiting call to submit their evidence, which they say is conclusive. At the Coble home, footprints left by a man walking on tiptoe were found, and comparison with footprints found at the scene of the Hill murder indicate that they are the prints of the same man. The man's stride in each case is 21 inches, and the width of the shoe in both cases is 3 1/2 inches.

Boasting the evidence supplied by the footprints, the width of the hand of the murderer as traced at the scenes of both murders in Oregon. Added to this, Cathey brothers declare they have sufficient finger marks to make a microscopical examination of the lines to compare them with the digit marks of the prisoner held in Tacoma as the murderer suspect.

Slayer's Imprints Found. Soon after the Hill murder, Dr. Cathey and his brother removed the window sills and door casings from the scene of the quadruple crime and from them obtained blood imprints by the application of a liquid which has the peculiar virtue of bringing out a bluish-green tint wherever a blood stain has been left. On the sills and casings were found several imprints of the murderer's hand. These are said to be identical with the hand imprints said to have been left by Peterson in several places about the hotel at Rainer where he roomed.

The murderer at both places walked tiptoe and in the Coble case a patch on the sole of one shoe is shown. Peterson, the man held for the crime, had his shoes repaired at Rainer Sunday and wore them the day of the crime. At the scene of both crimes the foot prints were left on linoleum or wet soles and were only discernible after close scrutiny. At the Coble home, Dr. Cathey outlined the marks in chalk and by comparing them with similar measures taken at the Hill home is confident that they are the imprints of the same man.

Mr. and Mrs. Coble were killed in exactly the same way that the assassin dealt death to Mr. and Mrs. Hill in Portland. Coble was felled with the butt end of an ax. So was Mr. Hill. Mrs. Coble's head was cleaved with the sharp end of an ax in like manner Mrs. Hill was killed. Bodies of both women were mistreated by the slayer. Further similarity in the crimes is shown by the manner of entrance and egress of the murderer in both homes. Entrance to the house was gained by the kitchen door and the murderer left that way.

Mrs. J. E. Burkhardt has returned here after a visit of several months in the East.

THOUSAND NEW READERS.

The News' subscription campaign, which has been in progress since the first day of June, closes this evening at 6 o'clock. A summing up of the business done in the way of getting new readers shows that over a thousand new people will read either the Daily or Twice-a-Week News during the coming year, a record that is certainly most gratifying to the management and far above expectations. During this campaign of subscription getting but five people have been dropped from our regular list, which is most conclusive that once a reader of this paper always a reader. In every nook and corner of the county this paper's lists have been swelled to such proportions that no other publication in the county weekly stands a ghost of a show of ever outdistancing—or even duplicating. Hundreds of old subscribers who have been readers of The News for many years will still continue to get Double-Week, weekly for some time, as an advertising medium there is no competitors in the field. The campaign was a clean one—from start to finish—and not a single complaint has been registered. For liberal patronage regarding The News and its traveling representatives the management wishes to acknowledge appreciation, and in the future, as in the past The Evening and Twice-a-Week News will continue to excel all other publications in this neck of the woods. After 5 o'clock this evening the regular price on all subscriptions will be charged.

Several Lives Are Lost In Cloud Burst Near Reno, Nevada—Chinese Cruiser Is Launched Today.

(Special to The Evening News.) TOKIO, July 15.—A new triple alliance, with Great Britain, the United States and Japan as its components, is the gist of many published opinions here today with reference to the revised Anglo-Japanese treaty. It is generally believed here that the agreement absolutely prevents war with the United States. Editorial comment is chiefly favorable to the new alliance.

Several Lives Lost. RENO, Nev., July 15.—Several lives are thought to have been lost in a mighty cloud burst which occurred last yesterday between Gardenersville and Lake Tahoe. All the roads are said to be destroyed, and several automobile and driving parties are missing.

To Impach Wickersham. WASHINGTON, D. C., July 15.—The impeachment of United States Attorney Wickersham on charges of having deliberately connived to assist in the escape of men who demanded the government of fifty millions of dollars in Alaska, is predicted here today. The democrats have taken up the charges against the attorney general, and will institute a thorough investigation. The judiciary committee today decided to report favorably on a resolution demanding the documents in the case of Captain Jarvis, once agent for the Guggenheims in Alaska. The failure to prosecute this man may cost the attorney general his position.

In giving his view of the proceedings, Attorney General Wickersham today asserted that more than a year ago he furnished the U. S. district attorney with information warranting an immediate indictment against Jarvis. He declared that the attorney general deliberately allowed the statute of limitations to run against the offense. Jarvis committed suicide in Seattle, on July 2.

WARM WEATHER TOPICS. Salem Bunch Sweltering Under Rays Of Old Sol.

SALEM, Or., July 14.—The sudden heat wave has brought down a shower of requisitions on the secretary of state from various state officials. The office of the attorney general has asked for two electric fans; the office of the governor for three; the office of the state architect for two; and the office of the state purchasing agent for "one high-grade electric fan."

Some of the officials have waxed facetious. George O. Goodall, secretary of the state railroad commission asks for a fan of "three horsepower." C. L. Starr, secretary of the state tax commission, has sent in a requisition for a cherry City Sundaes and a shower bath, while C. V. Galloway and J. B. Eaton, the state tax commissioners, have put in a requisition for one ton of cold ice and one fireless cooker. The insurance commission supplements an order for an order for an electric fan with a request for cold drinks served hourly to the employees of the office.

FOR CHEAP COAL

Would Develop Alaska Coal Deposits

PETITIONS BEING CIRCULATED

Coal Will Be Sold At Actual Cost Of Production Plus The Price Of Handling—\$6,000,000 Project.

(Special to The Evening News.) PORTLAND, Ore., July 15.—A movement looking to the mining and marketing of the Alaska coal deposits was launched here today by the government. With hundreds of signatures, including Governor West and many other state and government officials, petitions are being circulated urging congress to create an Alaskan coal mining commission which shall supervise the mining of coal on the government lands in Alaska, the building of a railway to tide water at Controller Bay, and the purchase of colliers and establishment of government coal bunkers at Astoria, Coos Bay and Portland. It is planned to sell coal in these bunkers direct to the people of the entire country at the cost of production, plus the expense of handling. The estimated cost of financing the project is placed at \$6,000,000. Copies of the petition are being sent to all sections of the state.

Copies of the petitions will also be forwarded to Oregon's representatives in congress, and it is generally predicted that these men will exert special pains to further the project and bring about a realization of the coal deposits which are at present held intact by the government.

Mrs. Ella Fisher, of Eugene, stopped off here last evening enroute home from California where she spent the past few weeks visiting. Mrs. Fisher is a sister of P. E. Alley, and is well known in this vicinity. She continued her journey to Eugene this morning.
