

SHOT AFFINITY

Murder and Suicide Followed Night's Carrousal

HUSBAND WITNESSED TRAGEDY

Estranged from Husband for Months. Celebrated Return by Drinking Heavily with Rival for Woman's Affections.

(Special to The Evening News.) SAN FRANCISCO, Aug. 7.—His illicit love spurned, George Forsythe Gardner, aged 40 years, shot Mrs. Catherine Decker, aged 35, through the head today, and followed the murderous attack by shooting himself. The unfortunate woman is probably fatally wounded, while the suicide died instantly. Fred Decker, the husband of the wounded woman, summoned his wife and was taken to a hospital. Decker and his wife had been estranged for several months and the man had only returned that day in the hope of reconciliation. Forsythe was also at the home of the woman and they remained up all night, the two men drinking heavily. Forsythe had proposed to Mrs. Decker, but had been refused, when in a drunken rage he is alleged to have drawn his revolver and shot the object of his affection, killing himself immediately after. The husband of the woman was the only eye witness of the tragedy.

Absolute Rest for Pope.

ROME, Aug. 7.—The gravest anxiety prevails in the Vatican over the condition of the pope, who had a sinking spell this morning, but under the ministrations of a corps of physicians the pontiff revived. It is feared that he will not sufficiently recover in time to participate in the celebration in honor of his accession to the throne, which is scheduled for Wednesday. His doctors have ordered absolute rest for the patient.

GAME LAWS VIOLATED.

Persons Hunting Deer With Hounds to Be Prosecuted.

Persistent reports from all over the State have reached the office of Game Warden William S. Finley to the effect that the laws prohibiting the hunting of deer with hounds are being violated. At the present time deputies are hastening to the various hunting grounds where deer are known to gather with explicit instructions to arrest such violators and

prosecute them to the full extent of the law. Mr. Finley states that he will overlook no opportunity to punish deer hunters who use hounds or other dogs for the pursuit of deer as the extinction of this animal is assured unless strenuous measures are adopted immediately.

Reports from the Forestry Service of the United States government indicate that the elk of Oregon are rapidly becoming extinct. There are less than three hundred animals within the boundaries of the state at this time. Warden William S. Finley announces his intention of interesting the President in making a proclamation, setting aside the Bull Run watershed as a wild game reserve. This is within the authority of President Taft, for this property is already under government control, being in the Oregon forest reserve. It was Mr. Finley who induced President Roosevelt to set aside the Lake Malheur country as a wild bird reserve, and he believes he will secure a like concession from the present executive.

With less than 700 antelope remaining in Oregon evidence has reached the office of State Game Warden Finley that a sheep owner of South-eastern Oregon has systematically planned the killing of many of these animals during the last two winters. The object of this unlawful attempt it is said, is to provide bait for coyotes. The carcass of the antelope is poisoned when it falls, when eaten by a coyote, consequently destroys that animal. Deputies are now seeking exact evidence, with the intention of discovering the guilty party, when diligent prosecution will follow. The identity of the sheep owner is, as yet, unknown, although officers are on the trail of the man, who will be made a striking example of the seriousness of this infraction of the law.

Sportsmen all over the state are urged to organize clubs by State Game Warden William S. Finley. He believes that the protection and propagation of game can be effected more thoroughly through a body of true sportsmen than in any other way. A quarterly report from the game warden's office will keep them in touch with conditions all over the state, while Mr. Finley will rely largely upon the recommendations of these clubs as to where and when to release game birds and fish.

The Union is placing in stock a supply of fruit boxes, rubber stamps, paper and other grower's supplies.

WILEY SCORES

Point Over Sec. Wilson and Attorney Wickersham

TRAVELING EXPENSES CHARGED

McCabe, Looking for Evidence to Oust Wiley, Drew Fat Salary and Traveling Expenses—Wilson's Personal Order.

(Special to The Evening News.) WASHINGTON, Aug. 7.—Dr. Wiley scored over his enemies by several points today when George McCabe admitted that he had traveled at the expense of the government throughout the Northwest getting delegates to the National Dairyman's Convention of 1909 to oppose Dr. Wiley, who had taken the stand that benzoinate of soda was a dangerous preservative to use in dairy products. McCabe said that he was solicited for the Department of the Interior and was summoned as a witness before the committee that is probing the agricultural department as a result of Attorney General Wickersham's recommendation that Wiley be dismissed for technical violation of the law. McCabe further stated that Secretary Wilson did not agree with Dr. Wiley on the benzoinate question and that it was by Secretary Wilson's order that he made the trip to see the dairymen in order to make sure that the convention would oppose Wiley, which it did.

A Satisfactory Lover.

NEW YORK, Aug. 7.—The sensational story that has startled many people in the city in which it is alleged that Private George Peters is an Austrian nobleman, serving in the United States army in order to obtain secret information of his government, has caused many smiles at the Department of the East headquarters here today. Although the story that the dashing Peters is said to have told to Clara Dwyer, his Kentucky sweetheart, is being investigated, army officers say that many similar tales are related by enlisted men to romantic girls, therefore no credence is given what is rumored of Peters.

POINDEXTER FOR THE PEOPLE

Washington Senator Flatly Tells Senate Arizona's Constitution Is None of Congress' Business. The Haytian Presidency.

(Special to The Evening News.) WASHINGTON, Aug. 7.—Asserting that the principle of the recall of judges of the courts would be destructive to a republican form of government, Senator Borah of Idaho bitterly assailed today the recall doctrine on the floor of the senate while speaking on the Arizona statehood measure. Senator Poindexter of Washington opposed the amendment by Senator Nelson to the admission bill which aimed to strike out the recall provision of the Arizona constitution on the ground that it is none of Congress' business what Arizona chooses to do regarding the recall.

STOLE HARNESS AND BUGGY.

Thieves Make Successful Raid on Dr. Brumfield's Barn Last Night

During a late hour last night some thieves entered the premises owned by Dr. Brumfield on the Alexander tract, west of the river and appropriated a fine rubber tired buggy and a set of single harness. Fortunately the horse was in the pasture or he, too, might have turned up missing this morning. The buggy was a low-wheeled, rubber tired style, with an open top and seat, and on the body panel just beneath the seat on each side is the doctor's monogram, R. M. B. The rig is painted black, and is nearly new. The harness is of the ordinary single strap, breast collar style. The rig was taken about 12:30 this morning because a lady living just at the east end of the Alexander bridge heard some one cross with a light rig about 1 o'clock, and after reaching this side turned southward. That the thief was well acquainted with the surroundings is the opinion of Dr. Brumfield, who states that the rig was pulled from the premises by hand, as marks on the earth indicate before a horse taken over was hitched in. Officers are endeavoring to get trace of the missing property and apprehend the thief.
