

TIRE EXPENSE CUT.

Frenchman Has Invention of Interest To Auto Owners.

An invention for preventing punctures in pneumatic tires has been patented by a Frenchman. He calls it "a puncture-proof metal band for pneumatic tires."

The chief feature of the invention is a band of canvas covered with small hexagonal metallic discs. These discs are arranged to fit close one against another, and are riveted to the canvas so as to form a flexible armor. The band of canvas thus prepared is placed in a sheath of rubber. In order to safeguard the tire this sheath is placed between the air tube and the outer cover. In this way puncturing the air chamber becomes impossible, and even cuts in the outer cover are in no way harmful. Experiments have shown that there is considerably less heating of the tire and that resilience is the same. Different experiments have been

OUR EDENBOWER LETTER.

Want Side-Track Before Rain—Another Case of Ptomaine—Heavy Fires Reported in Curry.

At the request of residents of Edenbower Merchant John Botcher this morning addressed the railroad commission at Salem urging the advance on the judicial calendar of the Edenbower side-track question now up before the supreme court. In this letter it is set forth that fall is commencing, and that the shipment of fruit, grain, wood, and other products will be soon due, as well as the shipments of all supplies for the fall and winter approaching. Whether or not the letter will have the effect desired, can not of course be known, but the fact remains beyond a doubt that the side-track is a pressing public necessity and its early completion would result in the advancement of the public welfare.

Don Hurburt, accompanied by his son and the latter's family arrived by train from Curry county Thursday. They are comfortably camped on a vacant lot while they secure a house in which to reside. Mr. Hurburt reports extensive forest fires raging in Curry county with little or no successful effort being made to extinguish them.

Louis Vaughn, a native of Virginia, died at his home the other night on the 29th of August, of cancer of the stomach, aged 77 years. His remains were conveyed to Glendale by his wife, Mrs. Hattie Vaughn, and there interred by the side of his four sons who departed this life previously. The late Mr. Vaughn left a record of a hard-working, sober and honest man, who gave up the struggle of life only when disease precluded further effort.

A. K. Castle caught a lot of boys in his water melon patch the other night, the boys say he was sleeping for them. They also say he talked to them in both English and German, and because they could not understand all he said to them they thought for a time he was going to have the sheriff remove them to the penitentiary, hang them, or something, but at the end of his speech he let them go.

These wagons, loaded with four families passed through Edenbower Thursday enroute to California. They will be missed from Oregon, since they carried so much good soil away with them.

A wagon drawn by four horses and loaded with fire-fighters, passed through town Wednesday morning on the coast range of mountains. Among the men were several old-time residents of Roseburg.

The intelligent housewives of Edenbower are now busy preserving peaches and pears, having put up blackberries, loganberries, currants and strawberries in season. Grapes still come next. Some of them will be converted into delicious jelly, but the greater number will be made into wine for home consumption. Hundreds of gallons of wine are put up in the vicinity of Edenbower every year and the owners have nothing to say of the wet and dry proposition.

O. W. Miller brought in two dozen Buff Leshorn chickens Friday. They were beautiful birds, and readily brought \$6 a dozen.

A low estimate puts the cost of new buildings put up in Edenbower during the past three months at \$10,000. These buildings were family residences, and neat, cozy and substantial structures.

The two Misses Morgan have arrived in Edenbower and will make their future home here with the remainder of the family, who will arrive later on. The elder of the two ladies mentioned will assume charge of the local school during the ensuing term.

A second case of ptomaine poisoning has occurred wherein residents of Edenbower have been the sufferers. This instance occurred in the family of Oscar Nelson three days ago, and resulted from eating canned salmon from the can direct. Several of those who partook of the fish were rendered very sick for a time, but finally recovered from excruciating pains in the stomach. They all have finally recovered, and it is the accepted opinion that each one got not enough of the unwholesome fish to produce worse results than was accomplished. Your correspondent again repeats his contention to those who eat canned goods of any description: empty the contents of the can immediately after being opened into an earthen-ware dish. If this is done there will be no one poisoned.

W. M. Brislin, of Melrose, was in town Friday with a wagon load of S. and Wonder oats. These oats are so named from the extreme width of the blades that grow from the stalks of the grain, and thus shade the ground from the direct rays of the sun, and the large size of the oat grains. Mr. Brislin raised 1,200 bushels of these oats on his farm this year, besides other crops.

ICE CREAM—For your ice cream orders call up the Douglas County Creamery, phone 340.

The day and night school of business training at home saves time and money. It begins September 4.

Postoffice Inspector Morse left for points in the southern part of the county last evening where he goes to look after business matters.

C. L. Linderman and family left for their homes at Bellingham, Wash., last evening after a few days spent at the home of S. D. Cooley, in Edenbower.

A. M. Molesworth, a local capitalist and real estate dealer, left for Minneapolis last evening where he goes to look after business matters. While in the East Mr. Molesworth expects to do some effective advertising for Roseburg and Douglas county.

The remains of the late Mrs. Patrick Reed, who recently died while enjoying a visit with relatives in Nebraska, arrived in Roseburg late last night. The body was accompanied by Miss Blanche Reed, Mrs. J. L. Chambers and Neil McCall and wife. The funeral was held at the family home at 2 o'clock this afternoon. Interment following in the Masonic cemetery. The funeral services were conducted by Rev. J. N. McConnell, pastor of the local Christian church. The funeral was largely attended, while the numerous floral offerings tended to indicate the high esteem in which the deceased was held by her many friends in this locality.

With the excavation practically completed, cement work on the new Perkins structure was commenced this morning. Work will be rushed as fast as possible, and in the event nothing unforeseen occurs, the building will be completed and in readiness for occupancy not later than January 1.

Sheriff Maas, of Clackamas county, and Detective Levins, of Portland, arrived in Roseburg last evening for the purpose of interviewing Frank Smith, recently arrested at Marshfield on a charge of stealing Dr. Brumfield's harness and buggy, and who claims to have knowledge of the persons who committed the Hill murder in Portland a few months ago. The officers interviewed the prisoner at some length last evening, and as usual, he told of hearing a conversation in Erickson's saloon, in Portland, which led him to believe that the conversationalists were the guilty parties. Neither Sheriff Maas or Detective Levins place any credence in Smith's story, and are inclined to believe that he is making a "grandstand" play with a view of gaining immunity in his present difficulty. Messrs. Maas and Levins leave for their homes tonight.

USE SWEEPING COMPOUND.

It collects the dust when sweeping, it preserves the floor, it prevents breathing disease germs, and makes the premises sanitary. NO-DUST for rugs and carpets. CEDAR-LINE for floors and linoleums.
