No matter what month you were born in we have your birthstone ring.

This idea of giving one another their birthstone ring is certainly a most thoughtful and pleasant way of remembering one another. Everybody is happy to receive a birthstone ring as a present, and if you are ever in doubt as to what to give your friends or family, then find out what month they were born in and come here and ask to see their birthstone in the famous W-W-W Guaranteed Ring.

This ring that we sell is the only permanently insured ring in the world. It is the only ring that is accompanied by a signed guarantee of the maker. It is a ring made so well that it is worthy of a guarantee. It is a ring that has the confidence of the maker to such an extent that he advertises it to you people through magazines that forty million people are reading.

This ring is for sale here in this store. It is here because we believe it to be the best ring in the world. It is here because we have confidence in it. It is here for the reason that we know we can sell this ring to you, our most intimate friends—to you whom we see day in and day out—knowing that we are selling you something worthy of our reputation and worthy of our friendship for you. We ask you whom we know well and you whom we want to know to come here to this store to see this famous W-W-W Guaranteed Ring; to see how little will buy this ring that is guaranteed for a life-time.

BATTLE BEGINS

(Continued From Page 1.)
treaty concluding the Russo-Turkish war, the powers are understood to have agreed to permit Italy a "pacific penetration of Tripoli".

Turkey contends that this right has been respected ever since. Italy has colonized Tripoli until her interests in that African province are very great. She has asserted, however, that her subjects have been mistreated by the Ottoman authorities and constantly discriminated against.

Frequent disputes have arisen, but the prolonged negotiations have never resulted satisfactorily to Italy. At the time that the Franco-German difference regarding Morocco were acute Italy turned her attention to Tripoli and in subsequent negotiations with Constantinople set forth that outrages against her subjects had been perpetrated for which no redress had been made.

She assumed a decisive attitude and presently began the mobilization of her army and navy. The first squadron of the Italian navy was sent to Tripoli a few days ago, and it has since patrolled that coast. At the same time Turkey was warned not to send soldiers or munitions of war to Tripoli. A Turkish transport bearing a few men and arms and ammunition later arrived at Tripoli from Constantinople, but was not molested, on the ground that she had sailed before the Italian warning had been received.

Italy, in the meantime, brought her army to the Italian coast, where the soldiers had been placed on board ship ready to proceed to Tripoli or other points.

ISSUES CHALLENGE.

Socialist Orator Wants To Discuss Political Situation.

J. B. Osborne, the blind socialist orator spoke to a packed house at Labor hall, last night, and his remarks drew applause and applause. Mr. Osborne said in part: "The socialists of today are the only defenders of the spirit in which this nation was born. The declaration of American independence proclaimed the innate equality of all mankind, and gave to the world the highest ideal of government, namely, to promote the life, liberty and happiness of all the people, and further teaches us that whenever any form of government becomes destructive of these ends that it is the duty of the people to alter or abolish that government."

Mr. Osborne then challenged any republican or democrat or any other defender of the present social order to meet him in debate and support the doctrines of the American Revolution.

Mr. Osborne speaks again tonight at Labor hall at 8 o'clock on the subject, "Municipal Government and the Citizen." Tomorrow afternoon at 2:30 he will speak at the court house park on the subject, "Socialism and the Liquor Traffic," and again tomorrow night at Labor hall on "Municipal Problems and Socialism."
