A FEW COMPLAINTS.

Are Filed With The Board of Equalization Today.

The members of the board of equalization, in regular session at the court house, are still busy today considering the complaints of persons dissatisfied with the valuations placed upon their respective properties. John Busenbark filed a complaint today in which he claims that 62 acres of his land, situated in section 4, township 27, is assessed as tillable land, while in fact, only 23 acres is tillable on account of the overflow of the river. He seeks a reduction accordingly.

R. L. Cannon filed a protest in which he alleged that 161 acres of his land, situated in sections 1 and 12 is assessed as tillable land. He claims that 40 acres of the tract should be assessed as grazing land. He seeks a reduction in accordance with his contentions.

A. J. Anderson, owner of lot 9, of the Archambeau estate, claims that his land is assessed at \$50 per acre. He alleges that \$20 per acre is a reasonable assessment.

H. W. Williams, whose land is assessed at \$7,900 asks a reduction of approximately \$2,000. He claims that his land was recently burned over, thus reducing its value materially.

Mrs. Carrie Thompson says she is a widow, and is owner of lots 9 and 10 in block 28. She claims that the assessment is excessive and that she is deserving of a substantial reduction.

Ella Bounds protests against the assessment of \$175 on household furniture. She claims that \$100 would be a just assessment.

HEAR BOYLE TONIGHT.

Dr. Boyle delivered a splendid sermon last night on the subject, "One Thing." Another great sermon will be given tonight. The music is under the leadership of Morton Hadley and is an attractive feature of our services.

The Christian church extends to you a cordial invitation to be present each evening at 7:30.

RELEASE DENIED.

Mind of Harry Thaw Remains Unchanged.

NEWBURGH, N. Y., Oct. 17.—Persistent reports that Harry Thaw's mind is being changed by the doctors at the Matteawan Asylum is expected within the next three months are denied by Dr. James V. May, superintendent of the institution. "I can say most positively that Thaw will not be released before January 1, or for some time after," said Dr. May.

The superintendent said Thaw's attorneys have forbidden their client to submit to any examination by a physician or outside persons, and it is almost impossible to determine the exact condition of his mind. "But I do say," said Dr. May, "that as far as I know, there is no great change in Thaw's mental condition."

ROY A. WHITSETT.

Roy A. Whitsett was born in Roseburg, Oregon, November 17, 1859, and died on South Deer Creek, Douglas county, Oregon, October 14, 1911.

When but a few years of age his mother died and soon thereafter Roy went to make his home with the Rev. J. F. Wallace, a South Methodist preacher then pastor at Myrtle Creek, Oregon. From here they moved to Ashland, Oregon, and later to Santa Rosa, Cal. After several years spent in the home of Rev. Mr. Wallace, Roy returned to Roseburg where he lived for about a year, then going to South Deer Creek, he formed a co-partnership with E. Embree in the saw mill business, this he followed until his death.

While in the home of Rev. Mr. Wallace, at Myrtle Creek, Roy united with the South Methodist church. All through his life his early training while in the home of Mr. Wallace followed him.

Making his home with Mr. Embree his partner in the best of spirits and apparently in the best of health he retired on Friday night and not responding to the call on Saturday morning, members of the family entered his room to find his body lifeless. He had been subject to heart trouble for years and in one of these spells he passed to the great beyond.

The funeral services were held at Roggess school house on South Deer Creek Sunday afternoon at 2 o'clock, being conducted by Rev. R. M. Menra, pastor of the South Methodist church at Roseburg. Interment followed at Gilmour cemetery, where the local grange had charge of the services.

A large concourse of friends attended the funeral and many beautiful wreaths were offered.

He is survived by his father, G. T. Whitsett, of Montague, Cal., a sister, Miss Lela Whitsett, and a half brother, Claud Martin, both of Roseburg, besides a host of friends.

Angela May Coming

The management of the Palace theatre has engaged the comic opera contralto, Angela May, for four

Angela May.

nights, commencing Thursday, October 19. Miss May will be assisted by J. Louis Mac Evoy, the singing

J. Louis Mac Evoy.

and talking comedian. In musical comedy sketches, Bonifide press comments from up the line assure us of a "singing treat extraordinary": "a laugh provoking, care forgetting time."

A change of bill every night with a double header Sunday and a special Saturday matinee for the little ones and parents, is promised.

KRYPTOK LENSES

KRYPTOKS embody two pieces of glass of different refraction, coalesced with intense heat into one, and ground into a lens having two distinct focal points. Without seam or cement, no edges to catch dust or to become cracked and jagged in cleaning. Ask your optician to show you KRYPTOKS.

NOTICE TO HORSE OWNERS
Until further notice, I will be located on Main Street, opposite Moore's Old Livery Barn Where I will be pleased to attend the wants of my former patrons in the Horseshoeing Line.
IRA A. PILKINGTON

**A Common Sense
Talk of Fuel
Economy**
Almost every range has the reputation of being a "fuel saver," but when their claims in this respect are tried out—are investigated, it is very often found that they actually DO NOT possess the qualities necessary to keep the fuel bill at the same level year after year.
Determined to handle a REAL fuel saver, we have investigated the claims of various makes of ranges and have finally decided that the
"Monarch" Malleable Range
is the only range so constructed that it will remain air-tight after years of use. This difficulty has never been overcome in the cast iron range as this type of range leaks freely after a year or two of use, reducing the operator's control and taking an unnecessary large amount of fuel to operate the range.
The fuel-saving features of the MONARCH will stand investigation and we shall be pleased to demonstrate them to you when you are in the market for a cooking utensil.
For example: The construction of the MONARCH is THOROUGH—Malleable Iron—the TOUGHEST, STRONGEST and MOST DURABLE MATERIAL obtainable, is RIVETED to the steel body of the range, making ALL seams and joints AIR-TIGHT. The seams of the cast iron range are not riveted, they are simply bolted and filled with stove putty. It does not take a great amount of heat to dry up putty or work the nuts loose on the bolts—that's apparent to everybody, and then the range takes in air at every point. This cannot possibly happen with a MONARCH Range and that is the reason we endorse it to our trade as a REAL FUEL SAVER.
The Duplex Draft of the MONARCH effects another saving in fuel, because it has two doors, one under each end of the firebox. These double openings supply an equal amount of draft to the fire and thus prevent waste by consuming ALL the fuel and also provides a uniform spread of heat through all parts of the fire. Other ranges have a draft under but one end of the firebox and as a result, unburned fuel accumulates in the part of the firebox farthest from the draft opening and this fuel is eventually shaken down with the ashes causing WASTE.
We are satisfied that the MONARCH will please in every way.
Don't select a range off-hand—investigate its claims—that's when the MONARCH makes good.
VISIT OUR STORE AND LOOK OVER THE MONARCHS WE HAVE ON DISPLAY. EVERY COURTESY WILL BE SHOWN YOU.
