STEEL MAGNATE IS EVASIVE

Admitted That Trust Dominates Steel Industry—Packers Methods of Establishing Cost and Prices Explained.

(Special to The Evening News.) SHANGHAI, Jan. 11.—Slaughtering all men, looting the homes and kidnapping the women, heavily armed brigands are engaged in a war of extermination near How Fu. Troops have been ordered to the region to suppress the brigands. Several bands have already been captured and their leaders beheaded. All foreigners in the district are said to have escaped to Shanghai.

Carnegie Stands Pat.

WASHINGTON, Jan. 11.—Andrew Carnegie resumed the stand today before the Stanley investigating committee. Today's examination opened with inquiries into the marvelous growth of the Carnegie Steel Company from \$250,000,000 to \$420,000,000 in 1906. Unsuccessful attempts were made by the committee to get the shrewd old steel baron to admit that such growth was altogether unreasonable. Carnegie attempted to evade direct questions designed to show that the steel business has practically stood still since 1900 by declaring that he had not kept in touch with the situation. Finally Carnegie admitted that the steel trust dominates the industry.

Cost and Prices Explained.

CHICAGO, Jan. 11.—When the trial of the beef packers was resumed this morning Henry Meyers, chief auditor for the Armour Company, was called to the stand. He described the method employed by the packers in determining cost and prices of the output of their factories. He said that meats were never sold below a margin of cost based on figures which he prepared. He afterward acknowledged that packing house heads frequently ordered him to change the figures he prepared. This fact, alleges the prosecution, shows how the packers, by figures, made it appear that packing house business was unprofitable.

Harry Neet, of Myrtle Creek, spent the day in Roseburg attending to business matters.

Deputy Sheriff Fred Stewart last night sent certified copies of the proceedings of the county court relative to the army levy, to the state mili-

Bankers and Trust Companies Draw Breath of Relief on Discovering Their Paper Was Entangled by Fire.

(Special to The Evening News.) MANILA, Jan. 11.—During a battle following an unsuccessful attempt of natives to ambush American troops, at Jolo, United States troops today killed 20 Moros, winning a victory which it is believed will end Moro resistance to American occupancy of the islands. Lieutenant Medoos, of the cavalry, was badly wounded, and three troopers were also wounded in the fight.

Securities All Safe.

NEW YORK, Jan. 11.—Although warned that their lives were endangered, 250 men today entered the Equitable building to brace the tottering walls and clear a path to the vaults containing \$2,000,000,000 in securities. Today the vaults containing the securities of William Reid & Company, bankers, were opened and \$15,000,000 in money and securities removed. At noon President Strong, of the Bankers Trust Company, left the ruins carrying a small tin box which contained \$5,000,000 in gold certificates. In the afternoon the Equitable Trust Company vaults were opened and \$25,000,000 in securities found intact. Over \$60,000,000 in gold securities of the American Exchange National Bank vault were removed to safe quarters in an iron bonded express wagon heavily guarded. Seventy-five millions were taken from the Mercantile Safe Deposit Company's vault. All of the paper recovered thus far has been unharmed.
