**MODISH STRIPES.**

Charming Frock With Modified Pannier Effect.

SUMMER COSTUME OF STRIPED SILK.

Striped silk is charmingly used in this costume. The fitted skirt ruffle shows the material in vertical lines; also the modified pannier effect is carried out in this fashion.

Scant ruffles of plain silk trim the pannier, outline the collar on the bodice and adorn the turn back cuffs on the sleeves.

This disposition of stripes requires an artist's hand to successfully manipulate.

**New Work For Women.**

Miss Lena Ashwell, Miss Gertrude Kingston, Miss Lillian McCarthy and Miss Sarah Brook are London women who manage theaters. Miss Ashwell was the first to take up such work and rather antagonized the other managers by giving away programs instead of selling them and by abolishing the cloakroom tip. She was finally obliged to relinquish these efforts at reform because of opposition. Miss Catherine D. Groth is a young woman who acts as advance agent for Frital Scheff with a great deal of success. She is a graduate of a Paris university and has taken her M. A. degree at Columbia, New York, a proof that college women are growing broader in their choice of work.

**New Teaching Method.**

Miss Henrietta Rodman of New York says that many high school girls are martyrs of a system of education which requires them to "pass" in mathematics and Greek and Latin, which they may hate and yet have remarkable ability in other directions. She has a plan of education to suggest to high school teachers which she has tried in her own school. One of the girls sits at the desk, and she sits among the pupils. The girl teaches for a day and, needless to say, has her own lessons that day. Then Miss Rodman encourages the girls to study themselves and, if they cannot learn Greek and Latin, to find out in what way they can excel.

**Women In Japan.**

The tenth anniversary of the founding of the Japanese Women's university, the only one of its kind in Asia, was observed last year. Marquis Ito and the empress of Japan have taken great interest in it from the beginning. While in India the percentage of girls attending school is seven out of every thousand, in Japan it is ninety-one out of every hundred, and undoubtedly the college has had much to do with the desire for education on the part of girls. Children may enter the kindergarten at the age of three years. There are about twenty papers in Japan devoted to the interests of women, and some women contribute to them.

**A Clever Idea.**

A clever idea for stowing away hats, furs, blouses, etc., was evolved by a woman who lived in a tiny apartment. She had a wide shelf erected across one end of her bedroom, about a foot and a half below the ceiling. Then she bought six or seven hat boxes and covered them with wall paper in a rose design that harmonized with the rose color of her room. These formed a kind of frieze across one wall, and without detracting from the general appearance made a little storehouse easily accessible. On the outside of her cupboard door was kept a list showing what was in box No. 1, box No. 2, etc.

**A String Belt.**

A belt made of colored string is a novel accessory to milady's toilet. It is made by crocheting the string, using a plain stitch, into the shape of a belt, having the two fronts narrower than the back. For light colored wash dresses natural colored string is used, but if it be a dark gown or you wish to match the color of your tie in the belt make it of a fine wrapping cord that can be bought in almost any desired shade. Fasten it in front with a plain metal or pearl buckle.

**Milady's Bonnet.**

My bonnet lies over the ocean. My bonnet lies over the sea. For, you see, it's the latest creation. And hasn't yet come from Paris. —Judge

**BLINDNESS PREVENTED.**  
TO WHOM IT MAY CONCERN: Having suffered the past three years with nervousness and pain in my head and eyes, with my vision gradually getting dimmer, and always seeing two objects, I became very much alarmed that I would lose my mind, hearing and sight, having tried the best oculists and opticians I could find, with no relief or comfort in nothing that they would seem to do for me. At last I was advised to consult Dr. E. J. Bonner, the eye specialist from Medford, which I did, and am happy to say he has made me see single, stopped the pain and hurting in my head and eyes, and my nervousness is getting better, with my general health much improved. I will recommend him to anyone, as an honest upright man, and one who understands his business. I live at 433 North Rose street, and will be pleased to have any one call or write me.  
MRS. I. FINDLEY.
