Boy Scouts Cleaning Up The New York Tenements

Photo by American Press Association.

FOLLOWING the example set by boy scouts in other parts of the country, those of New York city recently engaged in the work of a "cleanup week" in the most thickly populated regions of the metropolis. Handbills were distributed giving householders such advice as "Better to raise babies than flies" and "Dirt fattens flies and kills babies." But the scouts did not confine their activities to peddling advice; they delved into rubbish heaps, explored dirty back yards and cleared refuse from fire-escapes, as the illustration pictures them doing. The movement was begun by the Brooklyn bureau of charities, which had the co-operation, not only of the boy scouts, but of the New York Charity Organization society, the Babies' Welfare association, the University settlement and other organizations.

Is a Clean Cutter

Its corresponding gears and cutter bar re-aligning device are successful examples of the wonderful inventive genius of Mr. Joseph Dain. The gears are so mounted in relation to each other that perfect balance and true mesh are permanently insured and the crank shaft is relieved of all end thrust, preventing lost motion, reducing draft and making cutting power. That is why the Dain Mower runs lightly and cuts where others fail. It is the only mower you can really count on, right in the field with your wrench. This practical adjustment for maintaining the cutter bar in line with the screen, means added efficiency and years of extra service.

A Real Vertical Lift

Notice the spade handle on the lever. Easy to grasp, no twisting. One movement of one lever raises the bar, knife throws in and out of gear automatically as bar is raised and lowered. The long-handled, flexible spring flange" bar cutter bar, does practically all the work in lifting with the foot at corners and helps in raising the bar vertically. Consult the nearest John Deere dealer, learn all about this greatest of all mowers, and about the entire line of Dain Hay Tools, Loaders, Side Delivery Rakes, Stackers, Green Rakes, Presses, every one the best of its kind.

Dain makes the best hay tools. They have been specializing on them for over a quarter of a century.
