## President's Son and Daughter Visit Glacier National Park

TWO young people who enjoyed their summer vacation thoroughly are Robert and Helen Taft, son and daughter of the president, who made a tour through Glacier National park, Montana, with a party of friends chaperoned by Mrs. George E. Vincent, wife of the president of the University of Minnesota. One of the young women tourists was Miss Isabel Vincent, who was a classmate of Miss Taft at Bryn Mawr. Miss Martha Bowers, daughter of the late solicitor general of the United States, Lloyd W. Bowers, and her brother were also members of the party, which rode through the park on ponies, visiting the United States reclamation service camp and hobnobbing with the Indians, who are picturesque adjuncts of the place. The upper of the two photographs shows Robert Taft greeting Chief Big Top; the lower, Miss Taft mounted on her pony.

Is a Clean Cutter  
Its compensating gears and cutter bar re-sharpening device are successful examples of the wonderful inventive genius of Mr. Joseph Dain. The gears are so arranged in relation to each other that perfect balance and free mesh are permanently insured and the crank shaft is relieved of all end thrust, preventing lost motion, reducing draft and multiplying cutting power. That is why the Dain Mower runs lightly and cuts where others fail.

A Real Vertical Lift  
Notice the spade handle on the lever. Easy to grasp no twisting. One movement of one lever raises the bar, blade throws in and out of gear automatically as bar is raised and lowered. The large coil, flexible spring leads the cutter bar, does practically all the work in lifting with the force at corners and helps in raising the bar vertically.
