

INJUNCTION IS

Denied Taft Forces in Kansas Electoral Dispute

APPEAL TO SUPREME COURT

Injunction Would Defeat Will Of Kansas Voters—Naval Review at San Francisco in October Called Off.

(Special to The Evening News.)
DENVER, Sept. 16.—A body blow was delivered to the Taft people today by the refusal of the United States circuit court of appeals to grant an injunction restraining the eight Roosevelt presidential electors, chosen at the Kansas state primary in August, from having their names placed on the official ballot as Republicans for the November election. The court of appeals sustained a former decision of the lower court in which the Taft supporters were defeated, and the case was remanded back to the Kansas court for dismissal. The Taft people are not satisfied with the decision, however, and will carry the matter to the United States supreme court, hoping to secure a favorable ruling, which will oust the Roosevelt electors, although to do so would defeat the will of Kansas voters who regularly elected them.

No Naval Review.
WASHINGTON, Sept. 16.—The navy department announced today that it had abandoned all previous plans to mobilize and review the Pacific fleet at San Francisco on October 14. A statement made in explanation of this change in the plans stated that the necessity of sending the fleet to Nicaragua interfered with carrying out the arrangements to hold the review in San Francisco harbor.

The Roseburg schools opened today with a record attendance. All of the school buildings are crowded to their capacity, and pending the completion of the North Roseburg building a number of the students will necessarily have to be content with a half day's schooling. Had the new structure been completed upon the date specified in the contract the congested condition of the schools would have been eliminated and the work could have gone ahead without interruption or confusion. As it is, however, the instructors will do the very best they can pending additional room which is badly needed. Most of the pupils reported at the several school buildings this morning and were quickly assigned to their respective rooms. This afternoon the pupils are securing the required books preparatory to beginning their regular studies tomorrow.
