

**SCHOOL APPORTIONMENT AS COMPILED BY THE COUNTY SUPERINTENDENT**

Following is the apportionment of the county and state school fund among the several districts of the county for October, 1912.

By reason of the taxes being slow coming in, the apportionment is a few days later than usual but by waiting until this time we were able to apportion about \$6,000 more than had the apportionment been made

earlier, thus the districts will get the use of this money this fall.

This apportionment is made on the basis of so much per pupil of the state fund, and, of the county fund, \$100 to each district and the remainder divided per capita. Following are the district and the total amount received by each:

Dist.	Amount

**SINGLE TAX A FAILURE.**

Property Holder in Alberta Gives Written Statement of Condition.

(Special to The Evening News.)  
PORTLAND, Oct. 20.—The first of a mass of evidence that will show, it is declared, that single tax has already proved to be a failure in Alberta was produced today by Sir Siebel, a leading dealers of Portland. W. S. Jealousie has written to Sir Siebel, declaring that taxes in Alberta are already so high that it is impossible to sell land at all and that very shortly all land will be confiscated by the state. Here is the letter: 607 Yukon Ave., Portland: Dear Sir: "I have run across a copy of your open letter in regard to single tax and although a non-voter, was much interested in the same. I take the liberty to offer some authentic facts and figures in regard to the effect of single tax in the province of Alberta. I own three raw lots in a railroad town there of 2,000 population. Last year, these lots were assessed at \$900. The taxes amounted to \$40. This year under single tax these lots are assessed at \$2,500 and the taxes are now \$145, although these lots are assessed at \$2,500, I could not sell them for \$800. In fact, I could not sell them at any price. Conditions are in a state of stagnation there. My experience of single tax is that it is nothing short of legalized robbery. From my Alberta experience I know that it is decidedly harmful to the progress and prosperity of any place and the people of Oregon will do well

**WHY  
CONGRESSMAN HAWLEY  
Should be Re-elected to Congress**

Because he surpasses all opposing candidates in ability, experience and qualifications for Congressman.  
Because all his interests are in Oregon, where he was born, and he knows her people, resources and industries.  
Because he annually travels thousands of miles over the First District, learning the needs of his constituents and has secured millions of dollars for their benefit, and has aided land entrymen, veterans and others.  
Because he has been a faithful servant of all the people and not a favored few, and in national affairs has reached a position of influence so that Presidents Taft and Roosevelt, his associates of all parties, and constituents generally praise him in terms similar to those used by Governor West, who in an interview after a visit to the National Capital said:—"In intellect, oratorical ability and devotion to the interests of the people Hawley head and shoulders above the great majority of the members of the National House of Representatives."
