ST. Serbia and Montenegro.

Shooting Follows Carousal.

SAN FRANCISCO, Dec. 5.—Robert J. Widney, a prominent Los Angeles real estate dealer, was shot and probably fatally wounded by Mrs. Francis V. Lyons, an alleged paramour, after a drinking bout here. The woman is the divorced wife of William E. Lyon, of Denver, and denies that she intended to kill Widney, alleging that the wound was accidentally inflicted. Reports that Widney had made a statement at the hospital exonerating the woman are denied.

Confident That Turkey Can Be Whipped Single Handed—Alienists Declare Hickey Is Shamming Insanity.

(Special to The Evening News.)

WASHINGTON, Dec. 5.—Prohibiting stock and produce exchanges and certain clearing houses from the use of the United States mails on the ground that they are "conspiracies in restraint of trade," will probably be the final result of the money trust investigation now in progress, according to members of the committee conducting the work. The statement was made by Representative Pujo that "the postal laws will be invoked to exclude certain exchanges, associations, bankers and brokers from the use of United States mails unless complete and radical re-organization of their affairs was made." It is not thought probable that federal incorporation of stock exchanges will be attempted, but that federal supervision of such concerns will be demanded. The money trust probe will be resumed again Monday.

Greece Aggressive.

VIENNA, Dec. 5.—According to dispatches received here it seems apparent that Greece has determined to carry on the war against Turkey strictly on her own account, believing that victory will come to her efforts. Two Greek gunboats are said to be bombarding Valonia, Albania. The firing is directed at buildings flying the Albanian flag.

Boy Murderer Not Insane.

BUFFALO, Dec. 5.—Alienists who examined Hickey, confessed murderer of two small boys, allege that the man is not insane, but that in their opinion his recent actions are only calculated to bolster up the plan of the defense. At the time of his arrest Hickey stated he was ready to accept the penalty for his crimes, but later started a fight out-

ARCHITECTS ASSEMBLE IN THEIR ANNUAL CONVENTION

Panama Exposition Sites Are Chosen By a Number of Foreign Countries.

SAN FRANCISCO, Dec. 5.—The third meeting of the architectural commission of the Panama-Pacific International Exposition is now being held in the New Zealand building, this city. The architects, sculptors and artists attending this important session are Thos. S. Hastings, William Symmes Richardson, of New York; Karl Bitter, J. Stirling Calder, Jules Guerin, Willis Polk, Clarence R. Ward, J. Harry Blome, W. B. Faville, L. C. Mullgardt, Geo. W. Kelham, Thos. Hastings, W. C. Richardson, Henry Bacon, Robert Farquhar and Arthur Brown, Jr.

One of the most important matters to be discussed is the electrical illumination of the exposition grounds and Daniel Ryan an electrical engineer of New York, will make suggestions to the commission. Ryan illuminated Niagara Falls and furnished the lighting effects for the Hudson Fulton celebration. Models have been prepared of the different courts and buildings and will be used in the discussion.

SAN FRANCISCO, Dec. 5.—Thirty-two states have accepted the invitation to participate in the Panama-Pacific International Exposition and twenty-one states have dedicated sites. New York and West Virginia dedicated their locations last week with impressive ceremonies.

Twenty-one foreign nations have accepted the president's invitation to participate and thus far Japan, China, Sweden and Portugal have dedicated their sites. Next week Ambassador Jonkheer J. Loudon, Envoy Extraordinary and Minister Plenipotentiary will be here to dedicate Holland's location at the Exposition.

SAN FRANCISCO, Dec. 5.—Panama-Pacific International Exposition will be well represented on the excursion to Oroville which is to leave here next Friday under the auspices of the San Francisco Commercial Club. The delegation is attending the Oroville Orange and Olive Exposition to aid the California Development Board in upbuilding the state of California.

SAN FRANCISCO, Dec. 5.—The vouchers for \$15,000.00 each, representing the third and fourth payments on account of the Southern Pacific Company's subscription to the Panama-Pacific International Exposition, and two for \$10,000.00 each on account of the Central Pacific Railroad's subscription to the exposition, making a total of \$50,000.00 were received by Comptroller Rodney S. Durkee, of the exposition.

This is one of the largest subscriptions received by the exposition within the past month and is evidence of the interest being taken by corporations and individuals in the 1915 world's fair.

The subscription of the Southern Pacific Company of \$250,000.00 was made on June 16, 1910. This subscription was made conditional upon the recognition of San Francisco by congress, and the amount was divided as follows:

Southern Pacific Co., \$150,000.00
Central Pacific Co., 100,000.00

The first installment of 10 per cent on each subscription was made in March, 1911, a short time after congress recognized this city as the place for the holding of the exposition to celebrate the completion of the Panama Canal, and the second payments were made a few months later.

Southerner Suggests Way of Dealing With Jack Johnson—Electric Chair May Be Installed In Oregon.

(Special to the Evening News.)

CONSTANTINOPLE, Dec. 4.—Turkey's method of dealing with her thousands of war refugees is characteristic. The unfortunates are borne away from the cities on long trains, and a couple of cars of them are detached at each station along the route until nothing but the engines are left. It is then up to the local authorities of the towns receiving the refugees to care for them as best they can.
