DISCOVERY OF THE PACIFIC.

It seems strange to talk of the discovery of anything as large and covering as much of the earth's surface as the Pacific ocean, but it is a fact that only 400 years ago, on September 25, the Spanish explorer, Balboa, crossed the Isthmus of Panama and from its heights first viewed the great ocean and took possession of it and all the shores washed by its waters, in the name of the Kings of Castile. About the only evidence of this pretentious claim remaining today is the retention of the Spanish language in the numerous republics of South and Central America. The immensity of the Pacific ocean can best be grasped when one remembers that it measures fully 7000 miles from north to south, and has a maximum breadth of 10,000 miles, with an area of over 55,000,000 square miles, or 40 per cent. of the water area of the globe. The ocean received its name from Magellan, who passed through the strait bearing his name, and finding the waters so very calm, named them the Pacific. In honor of the 400th anniversary of the discovery, the United States government has just issued a one-cent postage stamp bearing the bust of Balboa, and on yesterday every vessel in this vast expanse that was equipped with wireless apparatus was signalled a ship to dip their colors and relay the message.

In a short time the statistic fiends will have the chance to compare the casualties resulting from the celebration of a sane Fourth, the victims of misgoverned railroads and those of the football campus, as the latter season will begin soon. Up to date, the railroads have the best of it, or shall we not rather say the worst, but wait, it is early yet, and the rushes have not begun.

And still the hops are hoppin', hoppin' up in price, and why shouldn't they, isn't it their nature? Don't we make yeast from hops, and isn't that a riser? Don't they make beer from hops, and don't that swell one's head, even though its after effect is to shrink one's purse? They must be mighty poor hops that can't swell or expand or inflate their own value. Let 'em hop up, for we've got lots of 'em to sell in this state.

Now comes the report that chickens at Gold Hill, in this state, are even going in the booster business, and are keeping in line with the name of their place, for information from that locality is to the effect that nuggets of gold are found in their craws, ranging in value from 10 cents up. It will be a safe bet that no live poultry will be shipped from that point now.

CITY NEWS.

Mrs. H. O. Ledis, daughter of F. P. Brown, a former resident of Roseburg, will arrive in Roseburg tonight from San Diego for a visit with relatives here.

Mrs. E. J. Barnes, who has been a patient at the Mercy hospital for some time past, was discharged from the institution recently. She is much improved in health.

Fred Callahan, a man who is hiking from California to New York, passed through Roseburg today, having come this far since last night, from Grants Pass.

J. W. Propat and wife, of Albany, arrived here last evening and spent the night visiting with Mr. and Mrs. T. Cole. They left this morning for Medford. Mr. Propat is a brother of Mrs. Cole.

Mr. and Mrs. M. L. Bushnell and child returned here this morning after three weeks spent at Portland. Mr. Bushnell, who was quite ill at the time he left here is much improved in health.

H. A. Moore, of Hood River, was a visitor for a few days. Mr. Moore came to look over a large stock ranch on Deer Creek. He was well pleased with our climate and conditions here and if a satisfactory arrangement can be made will doubtless purchase here.

Miss Maude Reynolds, who is employed as secretary of a large land company at Sutherlin, writes that the Sutherlin Inn, the largest hotel of that place, was destroyed by fire Sunday night. Miss Reynolds was staying at the hotel and lost nearly all her personal belongings in the fire. She was in Roseburg when the fire broke out, and so had no opportunity to save anything.—Eugene Register.

Buch Hughes, a well known Douglas county farmer, sustained a severe injury to the knee late yesterday as the result of engaging in a fistie encounter with Richard Stagg, of North Roseburg. It appears that Hughes and Stagg became engaged in an altercation, when Stagg grasped his opponent and threw him to the ground. In falling, Mr. Hughes sustained a severe injury to the knee. The injury was dressed by Dr. Hoover and the patient is improving as rapidly as could be expected.

Since the previous announcement that the Roseburg Fire Department would conduct a series of weekly dances to be given on every Wednesday night at the Armory the plans have been changed and the dances will be given on Saturday night instead of Wednesday and will be conducted as ten-cent dances. The boys promise to keep the floor in better condition than has been heretofore and will furnish the same excellent music if the attendance justifies it. These dances will be well managed and no ragging will be permitted. It is probable that the last dance of the night will be reserved for those wishing to indulge in this, but it has not yet been fully decided. The first of these dances will be given on next Saturday night, September 27. No dance will be given on October 4, the night of the opening of the new Antlers theatre.

Officers of the Pomona Grange have received the information that

At the request of many of the Roseburg citizens I herewith announce myself a candidate for city recorder at the coming city election, October 6. J. E. MILLEDGE.

Prof. A. G. Boquet, of the department of vegetable gardening at O. A. C. will address this Grange on Saturday, November 29. Program and subjects will be given later.

Jerry Millay and wife, Mrs. Hine and Kitt Carson, passed through Roseburg last evening enroute to their home at Eureka, Cal., after touring the Northwest by automobile. They left the California city early in June and have since visited many of the more important cities of the Northwest. Mr. Millay is a wealthy lumberman, Kitt Carson, another member of the party is a Mohawk Indian, and is about 68 years of age. He is well educated and is said to be quite wealthy. During his delay here Mr. Carson related a number of interesting experiences of the early days on the coast.

LOCAL MERCHANTS WOULD EMPLOY HOME MECHANICS

Richard Stubbs Gives Advice to Men Who Would Build Up the Town.

If the moneyed men of our city that are building up the town would insert a clause in these contracts that are made with Portland contractors that they must hire home labor and buy some material where ever possible, our little city would go ahead much faster and our good carpenters and laborers would all have money to pay their bills, instead of walking the streets looking for jobs that outside labor have taken from them. We do not need to import labor from Portland for our building, as we have just as good here. This is only a hint to our business men that are improving our city with fine edifices. Yours for home labor. R. Stubbs.

"OFFICER 666"

"Officer 666" does not succeed in capturing the picture thief in the play of that name, but his efforts to do so carry him through three of the funniest acts that have ever been devised by an American playwright, and over so many laughing hordes that this particular sleuth is voted the finest blue coat that ever wore a night stick.

"Officer 666" is the big play of the year, and the announcement that it will be presented here at the grand opening of the Antlers theatre on October 4th has been the cause of arousing a decided feeling of expectancy among playgoers.

DEAR FRIENDS

Dear Friends: I would like very much to have PEANUT. He and I would have a jolly time together. I would be very kind to him. But the only way I can get Peanut is by securing the most votes in the following pony contest. So I would be very grateful to all giving me their votes.

Yours truly,
GEO. BRADSHAW, JR.
125 S. Kane Street.

STATE RIFLE OVAL

(Continued from page 1.)

Clark, of Iowa, commissioner five hundred from the Hawkeye state. Maryland is represented by 250 farmers; Wisconsin by 600; Minnesota by 400; and Indiana, Missouri, Trans-Missouri and Southern States are represented by many hundreds of farmers.

The establishment of a bureau of markets in the department of agriculture, and a real rural credit system which will completely divorce Wall street from its dominance of finance in the United States were the two most important subjects considered at the congress. Speakers today demanded that congress give them a rural credit system which will really relieve them of approximately one-half of their present interest burden which amounts today to nearly \$500,000,000 annually. The dominance by Wall street of the money market, declared speakers, has been the sole cause of high rural credits which they claimed will be reduced to normal and equitable rates only if the Owen-Glass currency measure is made a law.

Another important subject considered today was improvement of rural schools. Dr. E. P. Claxton, U. S. commissioner of education was the principal speaker on this topic.

SAMOLINE WASHES

CLEANS AND POLISHES EVERYTHING

It mixes with water and produces quick results.

SAMOLINE contains no acid, grit, benzine, grease, oil or any injurious substance.

SAMOLINE is absolutely non-inflammable and non-injurious. SAMOLINE economizes labor and saves money.

GENERAL DIRECTIONS FOR USING SAMOLINE

- For Cleaning Pencil Marks, Dirt, Grease and Soil from Painted Walls and Ceilings, Oil Paintings, Interior Woodwork, Varnished and Enamelled Surfaces, Mosaic Marble, Tile and Varnished Floors. Mix one part of SAMOLINE with four or more parts warm water; wash the surface with a soft brush or cloth; wipe off with sponge and clean water; dry thoroughly. See Note at end of Directions.
- For Automobiles, Railway Coaches, Street Cars, Steamships, etc. Mix one part SAMOLINE with five parts warm water; wash thoroughly, rinse with clear water and wipe dry. See Note at end of Directions.
- For Cleaning Pencil Marks, Match Scratches and Dirt from Store Fronts, Store Fixtures, Barber Poles, Chairs, etc. Mix one part SAMOLINE with three parts warm water. Wash clean, rinse with sponge and clean water and wipe dry. See Note at end of Directions.
- For all Metal Surfaces, Automobile Lamps, Brass Goods, Nickel, Silver, Aluminum, Tin and Porcelain Ware, Kitchen Utensils, Cutlery, Steel Tools, Sad Irons, Faucets, Harness Mountings, etc. Moisten a piece of soft clean cloth or waste with SAMOLINE (without using any water), rub the surface until the tarnish or rust is dissolved, then wipe off and polish with a piece of dry cheese cloth or chamol.
- For Marble Statuary, Bath Tubs, Lavatories, Closet Bowls, Sinks, Refrigerators, Dirty Window Sills. Mix half SAMOLINE with half warm water. Rub the surface clean with soft brush or cloth, or if preferable, dip the brush into the Cleaner, (without using any water) rub off the dirt, rinse with clean water, wipe dry. The result will surprise you.
- For Removing White Alcohol and Hot Water Stains from Table and Dresser Tops. Dip soft cloth into SAMOLINE (use no water), rub the white spot until removed, then wipe surface with sponge and clean water. See Note at end of Directions.
- For Glasses, Car Glass, etc. Mix one tablespoonful of SAMOLINE with one pint of hot water. Scrub the glassware thoroughly with a soft brush, rinse in hot water and allow to dry without wiping.
- For Mirrors and Windows. Mix as for glassware, then wash the mirrors or windows using a soft cloth and allow to dry into a powder, then wipe off thoroughly with a dry soft cloth.

NOTE—After thoroughly cleaning automobiles, interior woodwork, furniture, glass painted and all varnished surfaces, wipe over with our PULLMAN POLISH (or any other GOOD furniture polish) which will restore the life of the varnish and paint at a trifling cost.

DILUTE SAMOLINE more for a slightly soiled surface and less if very dirty.

Price: Gallons, \$1.50; Half Gallons, 90c; Quarts 50c; Pints 30c

FREE DOMESTIC SCIENCE LECTURES

At A. J. Lindholm & Son's Furniture Store

BEGINNING MONDAY, SEPTEMBER 29th, 1914

Undoubtedly the rarest kind of treat is to store for the house of Roseburg and vicinity in being able to witness free of charge the actual baking tests and talks on domestic economics by Mrs. Nevada Briggs, a graduate of pastry baking.

These lectures and tests are entirely different from any ever given in our city. Mrs. Briggs will do her work in plain words of the latest up-to-date science, every detail of the recipe is thoroughly explained and the scientific reasons given, together with the practical side of applying these scientific principles. Many house keepers attribute their success or failure to good and bad luck, this Mrs. Briggs will show to be only a wrong idea and that perfect methods make perfect results and that had high in old and new methods. She says there is a tendency among home keepers to dread bake day and to such extent that they do little home baking, when by using the right baking principles bake day can be made a pleasure and can be done with little work and time.

These lectures begin Monday, Sept. 29th at 2:30 p. m., and will continue a limited number of days. Each afternoon the program will be changed. Agents of the lectures will visit you at your home and explain thoroughly to you the nature of the lectures and will be glad to explain to you how you can secure the Cook Book used by Mrs. Briggs free of charge. Ask the agent who calls at your home to tell you any details about the lecture that you wish to know. Don't forget the opening lecture, Monday, September 29th, at 2:30 p. m. Ladies should bring a fork for sampling.

PROGRAM FOR

- | | | |
|------------------|----------------|----------------------------|
| MONDAY | TUESDAY | WEDNESDAY |
| Chocolate Cake | White Cake | 1000 Baltimore Cakes |
| Biscuits | Gold Cake | Beef Roll with brown gravy |
| Nut Bread | Marble Pudding | Dixie Biscuits |
| Peach Short Cake | Peanut Cookies | |

TO SECURE THE COOK'S BOOK

Purchase from your grocer a 25c can of K C Baking Powder and bring the certificate found in the can to the lectures AND SECURE A COPY FREE

PREPARE FOR COLD WEATHER

WHEN THE COLD WINTER DAYS COME ARE YOU PREPARED?

Cold weather needs ahead of time and you are safe. Our stock is now ready for your inspection and we are sure that we will please you with our great variety of timely supplies.

- Monogram Hot Water Bottles\$1.00 to \$2.25
- Rexall Cherry Bark Cough Syrup 25c and 50c
- Rexall Rheumatism Remedy 50c and \$1.00
