Oakland is contributing more than a widow's mite toward feeding the world meat. Last Friday a crate of turkeys, tall and regal in spite of their garance vile, were expressed to city epicures who could not wait till Thanksgiving, and a big bunch of porkers with hampers almost dragging the ground were shipped to Portland last Friday.—Oakland Advance.

Coquille now holds the fall record for deer hunting, and Ira B. Riddle, court reporter for this district, came near establishing a record that would have been unique. Last Sunday a doe that had evidently been chased in the woods came down the long bridge on the county road which leads into the city, following along the streets into Mrs. Wickham's back yard. Parties about saw the frightened animal and Mr. Riddle, who was on the porch, tried to catch her. The doe turned about and ran down a back street into a private yard, when she was surrounded and lassoed. On feeling the rope about her neck, the doe laid down and could not be moved except by force. She was placed in a barn and instructions asked from the state game warden relative to whether she might be held in captivity.—Marshfield Record.

H. A. Schwering, Charles Bailey and O. M. Foster yesterday returned from a week's hunting trip 11 miles west from the west fork of Cow Creek and proved their assertions that they had been successful by producing bear meat and venison steaks. Arriving at Cow Creek the party secured a pack outfit and went back into the districts of the Murphy-Johnson Copper mines where the country is exceedingly rough. Camping here was good except that it rained a great share of the time. Two four-point deer were bagged and Mr. Lindley managed to bring down a large black bear. He sticks to his story that it was a clean hit and points to the skin which he brought back with him to mount, that there is only one bullet hole, though his companions don't seem sure as to whether Mr. Lindley or the bear was the more scared at the time.—Eugene Register.
