BEAUTIFUL ENGLEWOOD RANCH

A splendid property, on the main Umpqua river, and having marvelously fertile soil and climate conditions, with splendid timber and excellent domestic water piped throughout house, barn and numerous lots and feed corrals. On account of the several surgical operations and the recent hospital experience of Mr. Engle, making it necessary for him to spend much of his time in hospitals, and for financial reasons, he has concluded to sell this splendid country estate. This is not an ordinary or even an average ranch; but has all the requirements of a first class country home, where one can have the maximum of both comfort and profit, and live there under excellent climatic and all other most satisfactory conditions. There are 870 acres, well improved and most productive, for general farming, stock, dairying and for all kinds of fruit and berries and is all garden land of the highest productiveness. Has about four miles of main Umpqua River frontage. The river bottom lands have twenty feet or more of excellent soil. No overflow. Soil on slopes and benches is also deep and rich, excellent for fruit and all farm and garden purposes.

The parks of spreading oak, and the fir forests, all in an excellent parking system, are the wonder and admiration of all nature-loving people who see this splendid ranch, which is in a class by itself. Write, phone or see J. M. Engle, or any of his family on the Englewood ranch for prices and terms, on part or all of the property. A very low price will be made for quick action. Don't miss the opportunity of your life to secure the best country home that may be found anywhere around the globe. ENGLE, Kellogg, Or.

FURNISH HOMES

Cheaper When New Tariff Law Becomes Effective.

KITCHEN UTENSILS ARE REDUCED

About Fifteen Per Cent. Reduction Will Be Noticeable in Furnishing Home Under the New Tariff Bill.

WASHINGTON, Oct. 31.—From the garret to the cellar furnishing the American home should be cheaper when the new tariff law gets into good working order.

Import duties on curtains, furniture, carpets, table linen, glass and china ware, kitchen utensils and other household articles are all sharply cut. Some of the tax reductions may eventually filter through to Mrs. American Housekeeper. Foes of the new law—its political enemies—assert that the tariff slashing will have little effect upon American pocketbooks at retail stores. The duties on household furniture has been cut from 35 to 15 per cent. While little foreign furniture is bought by Americans, the slicing off of 20 per cent. of the tax at the American seaport will stimulate foreign competition and, democrats believe, force down prices. Lumber also is on the free list, giving American manufacturers of furniture the opportunity to buy Canadian planks cheaper. Sanguine democrats believe 5 per cent. will be a fair decrease in retail furniture prices, a predicted saving of \$5 on \$100 worth of new furniture.

Fifteen per cent. duty is taken off kitchen utensils, but foreign competition is slight in this field. The reduction is potent, however, with power to force retail prices lower on pots, pans and kettles of American manufacture. Aluminum ware should be cheaper, the duty having been cut about 40 per cent. Putting in a new furnace may be more pleasurable, economically, under the new law, as the duty on such housewarmers has been reduced from 48 to 20 per cent. However, few foreign furnaces are now imported.

For the dining room table, dishes of china, porcelain, earthen ware and stone are reduced in duty about one-fifth. The retail price on these articles is expected by friends of the law to drop at least 5 per cent., affording a saving, for instance, of \$1 on a set of dinner dishes worth \$20. On cheap earthenware and pottery a reduction of retail prices can hardly be expected.

While the duty on cotton tablecloths is reduced from 40 to 25 per cent., estimated importations next year are only \$400,000, not enough it is believed, to cut retail prices even at the department stores. Cotton towels, dolies, blankets, sheets and pillow cases, etc., are reduced from about 40 to 25 per cent. in the new law. Some slight retail price reductions are expected to result. Linoleum should be slightly cheaper. Foreign imports next year under the new law are expected to aggregate \$2,000,000 and force retail reductions in this country. Duty on cotton window curtains are reduced about 12 per cent. and some portion of that reduction may reach the buyer.

A saving of from 25 to 50 cents on woolen blankets is expected by friends of the new law, because of the sweeping tariff reductions on wool and its products. This decrease will hardly be felt for a year or more. From 5 to 15 per cent. slashes in retail prices on cotton and woolen carpets is also confidently predicted by the Democrats.
