THERE IS MONEY IN DAIRYING

According to the best government statistics available the dairy products produced in this country exceeds \$800,000,000 proving conclusively that the dairy cow is a larger factor in the prosperity of the farmer than even our great American wheat crop, and the first thing to consider after you get good cows is a good separator. You want the separator that gets all the cream, that runs easy and lasts the longest and that separator is the DeLaval. The reason we make this statement is that 98 per cent of the world's creameries and butter factories today use DeLaval machines exclusively and that there is more than 1,250,000 DeLaval machines, many times all others combined, have been sold to date. Buy your DeLaval separator at Jack Dawson's Poultry Market, 507 N. Jackson St. a17p
