Will Again be Asked For Next Year Says Elbert Bede.

COTTAGE GROVE ASKS AID OF ROSEBURG

A Conference WEI Be Asked With Roseburg and Eugene-Cottage Grove Would Be The County Seat.

That Cottage Grove will make another fight next year for Nesmith county was the opinion expressed yesterday by Elbert Bede, editor of the Cottage Grove Sentinel and president of the Cottage Grove Commercial Club, who was in the city heading the delegation of fifteen from his city who came as delegates to the Southern Oregon Development meeting. Before the contest is started, however, Mr. Bede stated, a conference would be asked with Roseburg to consider where the southern boundary line of that county shall be placed. He hopes that when the proper time comes the co-operation of this city can be obtained. "It appears to me," said Mr. Bede, "that it would be wise for the two cities to join in settling such a line for not only would a future fight between the two cities be averted, but Roseburg could practically dictate where such a line should be placed, and in that way she could locate it at such a point so that, through the provisious of the county division law, it would be impossible for any other portion of Dourless county to be cut out for a new county to the north. In a county division fight in its own county Roseburg might not be able to do this.

Chairman Clark, of the Oregon Commission of the Panama Exposition, spoke of the benefits to be derived from the fair. An advertising campaign, judiciously conducted, declared the speaker, would result in attracting more people to Oregon than any other thing.

Other speakers were Senator Neumer, on behalf of the Reseburg Commercial Club; Mayor Rice, who delivered the address of welcome; Colonel Minuss, of Rogue River, and L. A. Parne, of Sutherlin.

Another important suggestion brought forward was that of requesting railroads to instruct all depotemployes to inform persons coming West that they were entitled to stopovers concopte. Often it was argued, travelers have no knowledge of these concessions on the part of the railroads and, consequently, do not take advantage of them.
