

**LARGE CROWD PRESENT TO HEAR REV. JONES AT SERVICES HERE LAST NIGHT**

**Noted Evangelist Describes Hell—“Judgment Is Subject Chosen By The Speaker.”**

Evangelist Jones gave his description of hell last night at the Baptist church in a sermon entitled "The Judgment". He was not sure of the character, whether it is a place of fire, a lake or brimstone, a place of mental torment or what. But he said "I believe it to be infinitely worse than any one has ever imagined, what ever its character may be."

Later he told of the kind of people who should go to hell. He said that many receive no judgment in this world adequate to their sins; and that it is only reasonable that some place of justice should exist for the great sinners that exist. According to the speaker only one way exists by which a human can escape hell, and that is Jesus Christ.

In another part of the sermon it was said that every man must meet the terrible enemy of man, death. And then he must pass the judgment seat at the great White Throne, where a man will have to stand before the infinitely supreme

God. Two or three different judgments were described in the sermon, the preacher explaining them from different view points.

The sermons were admirably spoken, and though dealing with hell, was not exactly what is often termed "hell and brimstone" sermons, so often delivered. It was deep and of greater interest, even to a so called "unconverted" man.

**NOW IT'S DRIED EGGS.**

**Questions of More Importance Than Battleships Confront Nation.**

WASHINGTON, Dec. 11.—Dr. Mary E. Pennington, in charge of food research work of the department of agriculture, told the house agricultural committee today that frozen and dried eggs would solve the problem of high prices and cold storage corners.

"Frozen and dried eggs," said Dr. Pennington, "soon will be marketed in small packages so as to be available to every household instead of for bakers and other manufacturers as at present. Hard frozen eggs will keep a year and there is no question dried and frozen eggs will ultimately displace the cold storage variety."

Eggs cannot be kept in cold storage and be fit for food longer than ten months, she asserted, and added that dried and frozen eggs do not lose any of the nutritive value.

The nation-wide inquiry has tended to put the department of justice on the side of the department of agriculture, placing much of the blame for high egg and poultry prices not on cold storage men but on the hen.

According to reports so far at hand cold storage men have suffered from a marked lack of eggs and other products and the prices have gone up for this reason. United States attorneys have sent word to Washington in many instances that cold storage dealers in their territory have stocks on hand far under stocks in previous years and that they see little prospect of relief.
