

KILLS PATIENT

Deadly Struggle at State Hospital for Insane.

ATTENDANT EXONERATED BY CORONER

Victim Dies From Injury—Los Angeles Jury Finds Prize Fighter Innocent—President 14 Back to Washington.

(Special to The Evening News.)
SALEM, Jan. 13.—Frank E. Wallace, a patient at the state hospital for insane, was killed here today as the result of a fall while tussling with Oliver Whitney, an attendant, whom Wallace is alleged to have attacked. Coroner Clough investigated the affair, and stated that no blame could be attached to Whitney. While struggling both men fell across a wooden block, the corner of the block striking Wallace in the pit of the stomach, inflicting injuries from which he died.

Approve Fights.
LOS ANGELES, Jan. 17.—Boxing was given legal approval by the superior court of Los Angeles county today when the jury found Jesse Willard, heavyweight pugilist, not guilty of prize fighting. The case grew out of the fatal match between Willard and Bill Young last August, the latter dying from his injuries. The jury retired late yesterday afternoon.

President Gets Back Home.
WASHINGTON, Jan. 13.—President and Mrs. Wilson arrived here at 7:45 this morning from their two weeks' vacation in the South. Both were in excellent health, and entering an auto were whisked to the White House. President Wilson immediately attacked a huge pile of accumulated mail that was awaiting his disposal. The cabinet met with him during the morning to consider the tentative draft of the special address he will make congress next week.

Who Will Pay McCulloch.
SALEM, Jan. 13.—The employment of State Senator Claude McCulloch by Corporation Commissioner Watson as legal assistant in the corporation department of the state, was not legal, and Treasurer Kay acted properly when he refused to pay McCulloch's salary warrant, is empowered in the decision handed down from the supreme court today. The court declared that the attorney general and the district attorney are the proper officials to give legal assistance to the state officers.

ALASKA ROAD BILL UP.

Chamberlain Wants Government to Build Lines in North.

WASHINGTON, Jan. 12.—Debate on the Alaskan government railroad bill began in the senate today with the prospect of occupying many sessions before final action. Senator Chamberlain, of Oregon, in charge of the measure, spoke at length, reading from the reports of government experts sent into the territory to study its possibilities and characterizing the purchase of Alaska from Russia as the greatest business arrangement in which the United States had ever engaged.

Reciting statistics on Alaska's minerals and fisheries to show the vast commerce lying isolated and virtually impossible of development under present conditions, Senator Chamberlain said the present railroads there did little or nothing to aid the territory as a whole because they were constructed to serve the ends of private interests. Alaska, today, he declared, is a country for rich men only.

The senator read reports on climatic conditions of the territory and its agricultural possibilities. When he touched on the coal land leasing feature of the bill, Senator Borah, of Idaho, took exception to a statement that leasing would stimulate competition. He advocated government development and operation of coal mines in Alaska. He insisted that unless this was done the ultimate consumer will not benefit. For, he maintained, the leasing system permits monopoly as readily as does outright ownership of coal lands.

Senators Cummins and Reed took part in the discussion, which indicated that this portion of the bill would meet with considerable opposition.

Senator Cummins said that if the government could not furnish coal in any other way at a better price than the consumer is now compelled to pay, it should mine the Alaska coal as well as haul it.

Revised interest was due in the Oak street bridge hearing today, and as a result the room of Mrs. Mabel Albright, on the fourth floor of the Post-Office building, was crowded to its capacity during the entire day. Many of those unable to gain admission to the room loitered about the halls in hope of hearing the testimony of those called to testify.

Most of the witnesses introduced today were called by the defense, and included a number of old timers of this vicinity. These witnesses testified regarding the erection of bridges, now at the foot of Lane street, and other matters of equal importance.

Inasmuch as there are several witnesses yet to be examined it is not likely that the hearing will be concluded before late tomorrow. Much interest is manifest in the hearing, people being present from all the districts lying to the west of the proposed bridge.

54-Mile Gale Blows Roof Off College Building.

WALLA WALLA, Wash., Jan. 12.—The wind reached a velocity of 54 miles an hour today, blowing most of the roof off Reynolds' hall, at Whitman college, tearing down signs and doing other damage.

Some of the farmers say a little damage was done to wheat, through the ground being blown away from the roots.

WORK WEARIES I. W. W.

Several Men Put to Work by Governor Object to Small Pay.

SALEM, Or., Jan. 12.—That the I. W. W. of Portland who plan making the capital of the state their mecca will find rough sledding in Salem was indicated today when the state board of control decided that with the exception of possibly 30 or 40 men, the best that could be done would be jobs for a part of them pulling stumps on state property for three good meals a day and a small wage.

One of the leaders of the "army" here declared that 500 men would arrive before the end of the week, and that they would insist that they be taken care of.

It became evident today the charge that many of the men do not want work and will not work, was well founded. Governor West without consulting the other members of the board of control early in the morning put 40 of the men to work at various state institutions.

Ten who were sent to the feeble-minded institute, partook of a good dinner, announced that the proffered accommodations were not satisfactory and marched back to the city. Others sent to the state fairgrounds took little interest in the work, and evidently were glad when the day's labor was finished.
