**A STATEMENT.**

I have been informed that a number of the patrons of my library are under the impression that I will be appointed librarian for the proposed public library, which is now being agitated in Roseburg. I desire to say that if such a position was offered me, I could not accept it. I have not got sufficient health nor strength to enable me to perform the arduous work required. A Public library would ruin my business, and if one is established in this city, I may be forced to retire.
