Order Catalogue Look it Over Carefully

and compare these prices. Don't waste money by sending it away from home. Bring your catalogue along with you, come to our store, see our goods, compare our prices and quality, and you will find that in every instance we have the catalogue prices and quality beaten; and you can take the goods away with you. No freights to pay. No delay. You make your own assortment and do not have to take one made up by us or any one else.

HOW CAN WE DO IT?

By adopting a new system of buying and distribution, all waste and unnecessary expense have been eliminated. No capital tied up in useless stock or slow accounts. We have no expensive fixtures that absorb as much money for some firms as we have invested in our stock. Our system admits of no free services that only a part of our customers get the benefit of. Every customer pays for just what he gets and does not have to pay for some service that some other person gets. The three members of our firm have each been in business in Roseburg for a good many years, during which time we have made an extensive acquaintance among people. We believe that our reputation for square, honest dealing in the past should entitle us to consideration and trial at the hands of the people, before sending out of town for their goods. In selecting our stock we have been careful to get the best quality in each particular line and grade.

GUARANTEE. We absolutely guarantee every article we sell to be as represented, and to give satisfaction or money refunded. There are no strings to this guarantee. We have the confidence in our goods and are not afraid to stand behind them.

DELIVERY. One of the principles of our new system is the elimination of all FREE deliveries, which works an injustice upon the customer who does not get his goods delivered, but who is charged the same price as the fellow who does. We have made arrangement for the delivery of goods whenever the customer desires, but we will charge him just what this service costs us.

CASH WITH ORDER. Another rule of our system is that we must have the cash with the order. We do not require the money sent several days in advance, but must have it at the time the goods are bought.

MAIL ORDERS SOLICITED. We earnestly solicit mail order from people living out of town, who are nearer our city than to other cities having mail order houses.

REMEMBER, our prices are in most cases less, for goods right here in Roseburg than other houses ask in Portland or San Francisco, and the freight rates to you are a great deal less from Roseburg. We guarantee safe delivery of all goods shipped by us. Should any shipment reach you in poor shape be sure you have your freight agent make notation of such damage on the face of the receipt he gives you. Send this receipt to us and we will make it right for you. If you have no freight agent at your station, or if goods are to be sent by Parcel Post then charges must be prepaid. You should therefore be sure to inclose enough money to cover these charges to avoid delay. Should you send more than required we will return it to you.

Be sure and compare these prices which are net at our store.
