

# Trade Secrets of the COFFEE BUSINESS

Coffees probably carry the largest margin of profit of any food products you buy. It was this condition we sought to change when we reorganized our coffee business a year ago. Big selling expenses of exclusive coffee houses are really responsible for the large profits. Because coffees are but one branch of our business, we are able to keep our expense of getting them to the consumer from 40 to 60 per cent under other concerns.

We are giving this saving to our customers in the shape of better values. Royal Club is the best coffee on the market, at 5c to 15c a pound less.
