MEXICO CITY AGAIN CHANGES HANDS

WASHINGTON, July 21.—Dispatches to the state department from Mexico City late yesterday announced that Zapata forces re-occupied the capital Sunday, following the evacuation by the Carranza army under General Gonzalez.

Zapata officials were said to have resumed full control of the city from which they were driven 10 days ago by Gonzalez, who now has gone northward with his troops to meet an advancing Villa force.

This unexpected development came as a surprise, not only to officials of the Washington government, but to both the Mexican agencies. It had been supposed that the Zapata army, defeated and harrassed in retreat, was operating along the railroad to Vera Cruz, waiting an opportunity to form a junction with the Villa column approaching from the north.

News of a battle near Pachuca, already reached by Villa's men, is hourly expected and may already have occurred, messages being sent here requiring about 24 hours in transmission. Other reports to the state department during the day said that railroad communication between Vera Cruz and Mexico City was suspended, "on account of the present military operations," but no details of the operations were disclosed.

At the cabinet meeting yesterday the uncertain Mexican situation was briefly discussed. Some move on the part of the United States in pursuance of President Wilson's message to the Mexican factions two months ago ending peace is expected in the near future.
