Charles W. Garland, an attorney of Portland, was forever disbarred from practicing in the court of this state by a decision of Justice Bean. Garland's case was heard by Attorneys John McCort, John H. McNary, O. P. Coshaw, Lorine K. Adams and Alfred Harrison, the grievance committee of the state bar association. This committee recommended the disbarment of Garland "for being guilty of any wilful deceit or misconduct in his profession." The controversy arose over the matter of an estate in Portland in which the sum of \$709.87 was bequeathed to the state and it was alleged that Garland appropriated the money to his own use. W. P. Lord represented Garland at the hearing.—Capital Journal.

The skirt of this white checked beach creation is full and flaring and gathered at the waist. The waist, with its high military collar, is severe in its plainness. A very novel idea is carried out by pockets which, instead of being sewed into the dress, are attached to two strips of braid and sewed on underneath the belt. The entire dress is trimmed with white silk braid. A hat and parasol of the same material complete this striking toilet.

"All Cats look grey—at Night!"

JUST Rubber and Canvas pumped full of air! So thinks the Tire User who buys Pneumatics "Blind," without comparison after thorough investigation. So thinks the Car Owner who buys from the Cut Price Dealer, the "just as good" Tire on which that Dealer quotes

him the biggest discount off a Price List specially printed up for that purpose. So thinks the Man whose Tire bill averages nearly half of his entire Season's running Expense, when it need not average one-fourth, if he would only "Work his head" and, once for all, learn the Tire Game.

THERE are Car Owners who regularly get 25% to 50% MORE Mileage, per Dollar invested in Tires, than do the Owners of other Cars driven with equal care, under equivalent road conditions. The latter type of Owner is apt to conclude offhand (from his own experience) that all Tires must be Short-lived and Unsatisfactory.

Now this is to tell him that there is as much difference between the Mileage and Resilience of different brands of Tires, when the facts are investigated, and proven through actual Service, as there is difference between the Color of Cats—when viewed by Daylight.

This is to inform him that three Rubber Factories using precisely the same quantity and quality of Materials might, and sometimes do, produce (through the difference in their Rubber EXPERIENCE and efficiency Methods) Tires of such widely different Mileage-Result as to average 3000 Miles, 4000 Miles, and 5000 Miles respectively—under parallel road conditions.

COST of production is therefore no sure guide to the Mileage and Resilience which can be put into such a subtle and "temperamental" product as the Rubber in a Pneumatic Tire.

And, though The B. F. Goodrich Co. can, and does, put the most Mileage per Dollar invested by the User, into Goodrich Safety-Tread Tires, they do not interpret this as a reason why they should charge a higher price, to include an Insurance Premium which would place their "Adjustment Basis" beyond the safe and reasonable minimum that Bad Roads and Careless Driving make necessary.

Because of its Manufacturing Advantages, its Precision Methods, and Waste-reducing Processes (resulting from its 45 years' EXPERIENCE in the working of Rubber), The B. F. Goodrich Co. can afford to and does, offer the greatest Mileage in Tires at the lowest price per Mile.

It sells the standard grade of Goodrich Safety Tires at 10% to 20% lower prices than other non-skid brands which "Guarantee" greater Mileage but cannot prove delivery of greater Mileage in actual use.

Why pay MORE for any Tire? THE B. F. GOODRICH CO. Akron, Ohio
