THE FEELING.

There is no use to try and underestimate the deep undercurrent of resentment that is felt by the majority of the citizens of this place against the men who are responsible for the obstructionist tactics now under way, and launched at the proposition which has been overwhelmingly endorsed by the taxpayers, as well as sponsored by the citizenship generally. While in a great many cases the indignation is outspoken and vituperative, the strongest element is that which does not say much, but thinks hard and deep. There are men in business here, and men with other interests, who will feel this for years to come. If this feeling were directed against men who in the past had been in the front line of citizens who stood for advancement of their home town, The News would feel that some leniency might be shown, some forbearance exhibited for past deeds, but the records of nearly every one connected with this affair show that they have been the relentless opponent of every move that has been made to advance this city, when such progression would touch their pocket in the nature of taxes. It is not true, as has been said, that because most of them have enough and do not care to put forth exertions to get more, they are opposed to the advancement of the city along the path of commercial prosperity. None of them have enough, none of them will ever have enough, and as long as they can suck it out of the rest of the community without costing them anything extra, they will continue to grasp it. Take the history of Roseburg for the past ten years, or longer, and see what these men and their coterie like them have done to advance the city to its present stage. If it had been left to them and their kind, would there be any of the twelve miles of paved streets? No, we would have been wallowing through the black mud and tripping on wooden sidewalks to this very day. Along with the great majority of the citizens of Roseburg, The News has little sympathy for these obstructionists, in the deserved resentment that is steadily gaining ground day by day against them personally and their tactics.

VERY REALISTIC.

It was a gruesome sight that was presented on the main corners of the city last night, the swaying forms of two men hanging high between two telephone poles on the opposite sides of the street. If there were any late arrivals on the Pacific highway, they must have had a sudden shock, so lifelike and natural were the effigies hanging there. This is really all wrong, it gives to our city the aspect of a mining camp, but it was comical nevertheless and afforded considerable amusement to a lot of the rising generation, as well as giving them a practical lesson for their future conduct as good citizens.

The Germans have captured Taken from the Russians. If there are any villages by the name of Gotten and Keopum in that region, it can be safely asserted they will meet the same fate.

How a successful campaign will not be bees buzzing. It is reported that the recently elected mayor of Chicago says he is a receptive candidate for the republican nomination for president next year.

DYNAMITE PLOTS THICKEN FAST

CLEVELAND, Ohio, July 3.—The local federal officials, upon orders from Washington, notified the Peerless and White automobile companies, and the American steel wire company, of an alleged plot to dynamite the plants. All these companies have been manufacturing munitions. Guards have been thrown about all the plants. Twelve thousand men are engaged in the plants, all of which are engaged in getting out huge war orders.

mors of dynamite plots have kept the police alert, but up to a late hour there has been no renewal of the bloody fighting which marked the Standard Oil employes strike yesterday. Special deputies patrolled a "deadline" drawn five hundred yards from the wall about the oil plant. Strikers and their sympathizers pored up and down the other side of the line, but no shots have been fired since early this morning. The sheriff telephoned ten of the nearby cities requesting an addition to the police force to aid the local police. If this request is complied with, he will have 100 additional uniformed men on duty.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation Or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizziness, nervous spells, acid stomach or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then set fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any any time.

WHO IS WHO IN ROSEBURG

(Continued from page 1.)

city and without exception one will find this same clique lined up shoulder to shoulder against any proposition which would have a tendency to better the laboring classes in particular and the living conditions in general. There are some of these men who opposed the first bond issue for the paving of the streets of this city, when a heavily loaded wagon mired in the middle of Cass or Jackson street in the winter time was a common sight. They were against the building of the new Oak street bridge, because they thought the old Cass street bridge was good for another hundred years. If they had their way about it Roseburg would still be without any pavements because they figure that if the old dirt roads were good enough for them they should be good enough for the coming generations.

Fight as these men may and do what they will, they will find that the opposition tends to arouse the fighting spirit of the other citizens of this town who will demand that this paltry four and one half per cent of taxable property shall not be allowed to rule.
