#### BOY SCOUTS ENJOY CAMP LIFE

Spend Three Days on the North Umpqua at the Wood Ranch.

Monday about noon a little company of the Roseburg Boy Scouts, in charge of Assistant Scout Master James Hamilton, arrived at the Wood ranch on the North Umpqua. The boys were tired and dusty, and the excessive heat of the day had sorely tested their endurance. They pitched a camp under the shade of an old oak near the river banks, and then proceeded to get dinner in regulation style. The afternoon was spent in arranging their camp. They were provided with "dog" tents, kindly loaned to them by Captain Buchanan, of the 4th company of coast artillery, O. N. G. A flag staff was set, and soon the national colors were floating over the camp, much to the pleasure of all passersby.

Each morning from eight to 11 o'clock regular work and drill was engaged in. This consisted of signalling, tramps through the hills for endurance tests, as well as meeting the requirements of the forced march order, in which the boys make a mile in 12 minutes. Part of the afternoon was occupied in scouting, map making and other requirements. The best of order and discipline was maintained. The boys were rigidly held to gentlemanly conduct, even to their language, and no expressions of profanity were allowed. Each afternoon at four o'clock the boys put on their bathing suits and enjoyed a plunge in the river. Every morning at five thirty o'clock the inspiring notes of the reveille awoke the youngsters and started them on their day's work and play.

The first night they slept in their tents without any sort of substitute for mattresses, and the experience was pretty tough. The next night, having provided themselves with an abundance of clean, bright straw from the farm, they enjoyed a sleep that made up for what they lost on the first night. Wednesday evening the camp was visited by Mr. and Mrs. Wood, who took along with them a quantity of delicious peaches for the young scouts, and the fruit was thoroughly enjoyed by all. Thursday morning at five o'clock the scouts broke camp and started for Rose-

burg. They each carried a roll of blankets, their canteen of water, haversack of provisions, and other equipment. They expressed themselves as having immensely enjoyed their three days in camp, and said that they hoped to repeat the pleasure some time next month.

#### ROSEBURG OPTIMISTIC.

On our return home from Portland last Thursday the editor of the Tribune stopped off for the day in Roseburg and aside from attending to business matters took occasion to converse with some of the business men and to note the business activity and general air of prosperity everywhere evident in the thriving county seat city. While business is not at its usual normal stage in Roseburg at present it is evident to the observer that the city is in a much more prosperous and progressive condition today than many of the more pretentious towns of the Willamette valley and about Portland. The citizens of Roseburg are quite optimistic of the bright future in store for their city, and they are enterprising and progressive as evidenced in the big majority of 8 to 1 in the recent bonding election to further the promotion of the Kendall Bros. large milling and railroad building activity soon to begin there. The citizens of Roseburg have faith in their town, faith in Douglas county as a whole, and are ever eager and willing to assist in a substantial manner any enterprise that will develop the rich timber, mineral and agricultural resources thereof.

Mrs. C. Manning left this morning for Wilbur where she will visit for a short time.

#### Message No. 4

To the Business Men of Roseburg

A young doctor, making a start in a small town, decided that to be prosperous he must look prosperous. He bought a new buggy and two good horses. Although he had only a few patients he always kept on the jump, attending to his patients' smallest needs. People began to notice this young doctor driving about town and they called him because he looked busy and prosperous. He got his start—a start that led to a comfortable practice.

Our town, like this doctor, must look prosperous to be prosperous. Clean streets, attractive store windows, well-painted buildings and dwellings give the prosperous air. Well-painted buildings are greatest of these.

### Tires That Fell

Looked Like Goodyears at the Start

Don't trust looks in buying tires. Great tires and skimpy tires, in plain treads, look about alike. The vast differences are hidden.

The Goodyear extras on our output this year will cost us \$1,635,000. That's for five great features used by no one else, and for other features commonly employed. Yet you cannot see them.

In addition, it costs us \$1,000,000 to make our All-Weather tread double-thick. That means deep, enduring grips. Yet dozens of regular treads, with shallow designs, pass for anti-skids.

Snap Judgment Don't buy a tire on somebody's snap judgment. He may have

had rare luck. Better trust the seasoned judgment of motorists in general. Goodyear tires outsell any other after 16 years. And this year their goodrepute is adding 50% to our users.

Goodyear values are impossible without the Goodyear output. Despite our extras, our price reductions in two years have totaled 45%. This year's price reduction saves our users about \$5,000,000.

Every Goodyear extra means more mileage on the average. It means less trouble, less expense to you, else we would omit it. But you cannot get those features without buying

ing Goodyear tires. Five of them are found in Goodyears only. Any dealer will supply you.
