A demonstration of Standard Oil products is attracting a good deal of attention in the store room beside the Denn transfer office. Two autos are shown, one a Ford and the other a White, both having parts removed so that the working parts of the car can be seen. Glass plates are inserted so that the action of the oil can be easily seen and understood.

F. W. Hilgendorf, Ernest Hilgendorf and Charles McMillan, all old acquaintances of the publishers of The News from Napoleon, Ohio, passed through Roseburg this afternoon on their way home from the Elks convention at San Francisco. The boys report having a splendid time and enjoying every bit of it. They said, however, that they would be glad to get back to some level ground again, as their necks have been on a strain from looking up for the past two weeks.

Uncle Sam Preserve Neutrality?

Our freedom relations have been strained almost to the breaking point. The United States has been led down to the very brink of war. The capitalists of the country have interpreted the spirit of the times, and are revealing with their usual cynical chapter in the nation's history.

CARTOONS MAGAZINE
 (Published by R. B. Winkler, Publisher of Popular Mechanics Magazine)
 Promote every month the cause of neutrality both in America and Europe. It is a veritable panorama of the war. What the millions think of each other is told by the cartoons which come under the surface and show the very thoughts of the people. Cartoons Magazine is the most fascinating and complete story of world events ever written. The pictures are supplemented by well-selected editorial comments and special articles. Invaluable to the library, the business man, the student of current events.

"All Cats look grey—at Night!"

JUST Rubber and Canvas—pumped full of air!
 So thinks the Tire User who buys Pneumatics "Blind," without comparison after thorough investigation.
 So thinks the Car Owner who buys from the Cut Price Dealer, the "just as good" Tire on which that Dealer quotes him the biggest discount off a Price List specially printed up for that purpose.
 So thinks the Man whose Tire bill averages nearly half of his entire Season's running Expense, when it need not average one-fourth, if he would only "Work his head" and, once for all, leave the Tire Game.

THERE are Car Owners who regularly get 25% to 50% MORE Mileage, per Dollar invested in Tires, than do the Owners of other Cars driven with equal care, under equivalent road conditions.

The latter type of Owner is apt to conclude offhand (from his own experience) that all Tires must be Short-lived and Unsatisfactory.

Now this is to tell him that there is as much difference between the Mileage and Resilience of different brands of Tires, when the facts are investigated, and proven through actual Service, as there is difference between the Color of Cats—when viewed by Daylight.

This is to inform him that three Rubber Factories using precisely the same quantity and quality of Materials might, and sometimes do, produce (through the difference in their Rubber EXPERIENCE and efficiency methods) Tires of such widely different Mileage-Results as to average 3000 Miles, 4000 Miles, and 5000 Miles respectively—under parallel road conditions.

COST of production is therefore no sure guide to the Mileage and Resilience which can be put into such a substitute and "temperamental" product as the Rubber in a Pneumatic Tire.

And, though The B. F. Goodrich Co. can, and does, put the most Mileage per Dollar invested by the User, into Goodrich Safety-Tread Tires, they do not interpret this as a reason why they should charge a higher price, to include an Insurance Premium which would place their "Adjustment Basis" beyond the safe and reasonable minimum that had Reasonable and Careless Driving make necessary.

Because of its Manufacturing Advantages, its Precision Methods, and Waste-reducing Processes (resulting from its 45 years' EXPERIENCE in the working of Rubber), The B. F. Goodrich Co. can afford to and does, offer the greatest Mileage in Tires at the lowest price per Mile.

It sells the standard grade of Goodrich Safety Tires at 10% to 30% lower prices than other non-skid brands which "Guarantee" greater Mileage but cannot prove delivery of greater Mileage in actual use.

mission for himself and his burro. The hospital authorities said they couldn't admit the burro. "Put he is sick," protested Brant. The white coated attaches shook their heads. Without a word Brant turned, headed the animal, and faced toward the wilderness. Aged man and aged beast, both limping and weary, toiled back to the desert together.

Mrs. C. W. Hughes leaves tonight for Chehalis, Wash., where she will spend three weeks or a month visiting with her daughters, Mildred and Ella May, and son, Hiawatha, and by Mrs. Wilson's mother, Mrs. Downen, of Indiana, left today in their auto for Crater lake. Klamath county and California. The party will go first to Crater lake where they will visit for a few days and then to the Klamath reservation. From there Mr. Wilson and Hiawatha will go to San Francisco, where they will attend the exposition.

mans, have provided a complete test of the comparative merits of Germanic and British civilizations. Germany has revealed her possession of organization ability, of initiative, of patriotism, of inventiveness, of an unbroken spirit under adversity, of discipline, of an ability to meet every new problem the war has thrust upon her.

Where Germany has succeeded, England has failed. The English (in the opinion of Germans) have proved themselves to be boasters, muddlers and uninspired in any of their works. They have been revealed to the world as a people undermined by discontent, unpatriotic, so prejudiced that they cannot even now accept the undoubted fact that their deniged, Lord Kitchener, failed them in their hour of need. The upper classes have shown bravery, but no qualities of intellectual and masterful leadership, and their lower classes are taking advantage of the perplexities of the war to strike for higher wages.

The Germans are asking what this year of warfare has shown the English to possess which the world would be better for the keeping. What can the world better be rid of, ask the Germans, at this anniversary time, the qualities the English shown since last August, or the qualities the Germans have shown? Is a Germany, beginning the second year of her war against the world, full of confidence, with increased faith in the destiny of the fatherland.

John Alexander, the well known Gilde merchant, came to this city this morning. Mr. Alexander said that he was not in town for any particular business, but was afraid he would not be able to hear the fire whistle when it announced the decision in the bond issue, so decided to come to Roseburg, where he was sure he could hear the welcome sound. He was accompanied by Mr. Blakely.

H. H. Woods, formerly candy maker at the Rose confectionery, has severed his connections with that place and has bought an interest in the Roseburg Candy Kitchen, formerly known as the Vernon.

DESERT HOLDS MYSTERY.

SAN BERNARDINO, Cal., July 27. Ill and feeble, Ernest Brant, 89, veteran prospector, is believed to be wandering somewhere in the Mojave desert with his pet burro. He prefers the solitude of the desert and the companionship of the little donkey to the companionship of men. Brant recently appeared at the county hospital here and asked for ad-
