HIS ONLY WAY OUT.
"Who was that tramp you were talking to over by the conservatory door a bit ago?"
"That, sir, was my wife!"
"O I didn't mean her. I meant the woman with her."
"That was our daughter!"
"I never said it!"

HIS PLAIN DUTY.
"Wife, the doctor tells me I have but a few days more, at most, to be with you."
"O, George! For heaven's sake hang on until my dressmaker gets back to town. I wouldn't wear a stitch of mourning anybody else made."

PATRIOTISM.
Patriotism is a virtue every person is willing to exercise when the government isn't interfering with his personal interests.

It is a state of conditional agreement with the government for the time being.
Patriotism is the long suit of politicians who wish the present administration to be sustained because it will further said politicians' best interests.

The man who will stand loyally by the head of the government when said head is urging legislation opposed by the faction which put that same man into office, is a patriot.

But that isn't what his former supporters call him.
In time of peace patriotism is scarce. In time of war, fatal.

ITS OTHER NAME.
"I have here," said the smooth salesman to Miss Passay, "a device for anchoring firmly the symmetricals some woman wear."
"Ah-h-h!" breathed Miss Passay. "A new kind of padlock, eh?"

WAR NO LONGER GLORIOUS
He wrote a book about the war—
A theme folks do not love.
For what they killed each other for
And slugged Bill Bryan's dove.

He wrote a book about the row,
And thought 'twould make him rich
But as the thing transpired, somehow
Here seemed to be a hitch.

He wrote a book on Europe's prep—
Hear this, and hold your breath!
And 'stead of gaining wealth, this chap
Completely starved to death.

And every one who knew he wrote
About the foreign fight,
And when hunger got his goat,
And shouted "Served him right!"

REDUCED PLUMAGE.
You've Doodle went to town
Upon his gray mule Nellie.
He stuck a feather in his hat
And he called it vermicelli.

Can Uncle Sam Preserve Neutrality?
One foreign relations have been established almost to the breaking point. The United States has been led down to the very brink of war. The cartoonists of the country have interpreted the spirit of the times, and are recording with their pens this spirited chapter in the nation's history.

CARTOONS MAGAZINE
(Published by E. S. Wicker, Publisher of Popular Magazine)
Presents every month the cream of caricature both in America and Europe. It is a veritable panorama of the war. What the nation thinks of each other is best told by the cartoons which go under the surface and echo the very thoughts of the people. Cartoons Magazine is the most fascinating continued story of world events ever written. The pictorial pages are supplemented by well-selected editorial comment and special articles. Invaluable to the library, the business man, the student of current events.

"All Cats look grey—at Night!"

JUST Rubber and Canvas—pumped full of air!
So thinks the Tire User who buys "Pneumatics" "Blind," without comparison after thorough investigation.
So thinks the Car Owner who buys from the Cut Price Dealer, the "just as good" Tire on which that Dealer quotes him the biggest discount off a Price List specially printed up for that purpose.
So thinks the Man whose Tire bill averages nearly half of his entire Season's running Expense, when it need not average one-fourth, if he would only "Work his head" and, once for all, learn the Tire Game.

THERE are Car Owners who regularly get 25% to 50% MORE Mileage per Dollar, in Tires, than do the Owners of other Cars driven with equal care, under equivalent road conditions.

The latter type of Owner is apt to conclude offhand (from his own experience) that all Tires must be Short-lived and Unsatisfactory.

Now this is to tell him that there is as much difference between the Mileage and Resilience of different brands of Tires, when the facts are investigated, and proven through actual Service, as there is difference between the Color of Cats—when viewed by Daylight.
This is to inform him that three Rubber Factories using precisely the same quantity and quality of Materials might, and sometimes do, produce (through the difference in their Rubber EXPERIENCE and efficiency methods) Tires of such widely different Mileage-Result as to average 3000 Miles, 4000 Miles, and 5000 Miles respectively—under parallel road conditions.

COST of production is therefore no sure guide to the Mileage and Resilience which can be put into such a subtle and "temperamental" product as the Rubber in a Pneumatic Tire.

And, though The B. F. Goodrich Co. can, and does, put the most Mileage per Dollar invested by the User, into Goodrich Safety-Tread Tires, they do not interpret this as a reason why they should charge a higher price, to include an Insurance Premium which would place their "Adjustment Basis" beyond the safe and Careless Driving make necessary.

Because of its Manufacturing Advantages, its Precision Methods, and Waste-reducing Processes (resulting from its 45 years' EXPERIENCE in the working of Rubber), The B. F. Goodrich Co. can afford to and does, offer the greatest Mileage in Tires at the lowest price per Mile.

It sells the standard grade of Goodrich Safety Tires at 19% to 30% lower prices than other non-skid brands which "Guarantee" greater Mileage but cannot prove delivery of greater Mileage in actual use.

Why pay MORE for any Tire?
