THE GREAT AMERICAN DESERT

THE great American desert was once located west of the Great Salt Lake. But a few years ago it got loose and can now be found in most of the passenger cars in the United States.

This was very unfortunate. Nobody used to suffer much while crossing the Great American desert, but since the common drinking-cup has come to be looked upon with more alarm to America than the peevish nation with a bigger navy, our trains have been full of gasping passengers looking at full ice-water tanks with helpless woe.

Nothing is so irritating as to perish with thirst in sight of a full water tank because a careful state government has prohibited the common drinking-cup in the interests of health.

The common drinking cup undoubtedly aided in the free distribution of microbes among the populace, but the uncommon drinking-cup on a hot summer day has spread the cause of anarchy and discontent among the masses who can't afford to hire a Pullman porter to take the common drinking glass out of a closet in which all the microbes have been smothered.

Still, travelers who have not oiled their throats in order to keep the dust down should not despair. There are many ways of extracting ice-water from a tank on a hot day, though the common drinking-cup may be in the museum along with the clean street and other curiosities.

One can always make a drinking-cup out of an old envelope. An envelope which has hung around a pocket for some weeks picking up acquaintances in the microbe line is several times as nutritious as the common drinking-cup and will enable the user to acquire a full assortment of diseases while laughing merrily at the state law.

The shoe is also an excellent drinking-glass. Once only champagne was drunk from slippers by

A man who is an acrobat can drink from a straw hat

the speed limitless class. But nowadays wives and mothers fill slippers in the day coaches of a thousand trains and quaff merrily therefrom.

A man who is an acrobat can drink from a straw hat, and a watch-case has saved many a traveler from season crack and blisters. In spite of all these, however, great thirst prevails on the trains of this land and no traveler should venture far without a canteen. The poor emigrant who drank enough out of the Missouri on his way west to last him until he sighted the Colorado has nothing on the modern traveler.

Nurse Proclaims Skin Cure

Myrtle Hahn Says D. D. D. Prescription is Worth Rockefeller's Millions to Her.

"Ten years I suffered with eczema—three years of that time I could not appear in public. My entire body was covered with the disease. I could not eat. I could not sleep. I could not live. I have at last found the great Prescription D. D. D. My body is clean, smooth. If there were one bottle only of D. D. D. in the world and I had it, Mr. Rockefeller's millions could not buy the golden fluid."
Nurse Myrtle Hahn (in care Old Ladies' Home, Durham, N. C.)

How about you?
If you have any skin blemish or a little rash, do not let it develop into something more serious. Remember D. D. D. Prescription has been recognized for fifteen years as the standard skin remedy. It always helps, and if used according to directions, it should cure in a short while.
All druggists sell this standard remedy, but if you come to us, we will offer you the first full size bottle with the guarantee that unless it stops the itch at once we will refund the purchase price. Ask also about the equally efficient skin soap.
