MARSTERS GETS APPROPRIATION

\$5000 to be Expended at Once For Road Work in Douglas Co.

WILL SHORTEN DISTANCE TO CRATER LAKE

Other Improvement Work will Bring Thousands of Dollars To Douglas County.

That Judge Marsters' recent trip to Salem to appear before the state highway commission with plans for the improvement of the Pass Creek canyon road was very successful is proven by the following dispatch, received from Salem today:

SALEM, Aug. 11.—The state highway commission at its meeting yesterday authorized the county court of Douglas county to expend \$5000 at once for the preliminary work on a road from Pass Creek canyon south which it is said will make the trip to Crater lake one day shorter and will avoid about 120 miles of the road to the Crater lake national park. The proposed new road will run by Tiller Rock over what is now little more than a trail in a few places. S. C. Bartrum, forest supervisor of the Umpqua national forest, stated that the preliminary survey showed that the steepest grade would be but two per cent and that the Tiller Rock would become a wonderful scenic route.

State Treasurer Kay was in favor of taking immediate action in the matter but Governor Withycombe asked that the advisory board of the Pacific highway be consulted before any definite action was taken. It is stated that the proposed road will make a creditable addition to Pacific highway and will improve this highway by shortening the route and also by providing a shorter route to Crater Lake. Judge Marsters, county judge of Douglas county stated that the residents of that county were favorable to the expenditure of county money on the proposed route.

The work of the Pass creek canyon road will begin in a very few days according to a statement made by Judge Marsters today and during the winter months a survey will

HUNTING LICENSES ARE IN DEMAND

That the people of Douglas county are taking a greater interest in hunting and fishing than ever before is shown by the number of hunting and fishing licenses issued by the county clerk's office. A steady growth is shown in the past few years in the sale of licenses this year being a decided increase over any previous year. The greatest rush of licenses comes the last three days before the hunting season opens, this year the date being August 15. On account of the season opening 30 days later in making comparisons it is necessary to use the month from July 15 to August 15 instead of the month of July as heretofore.

In July, 1913, there was taken in by the clerk's office by sale of licenses \$1,068 each dollar representing one license. In 1914, \$1,104, a gain of \$36. During the month of July, 1915, there were sold 312 licenses, and in August to date there has been sold 262, making a total of 574.

Eighty-six licenses were issued yesterday and it is thought that the next three days will average at least 100, bringing the total up to over 800. Added to this number is the licenses sold by the seven deputies, there being a person authorized to sell licenses in Glendale, Drain, Sutherlin, Myrtle Creek, Riddle, Elkton and Gardiner. With this addition it is certain that the total number will run considerably over that of last year.

be run south with the idea of more improvements and the work of the new construction will begin as soon as the weather opens up in the spring. The work will mean the expenditure of several thousands of dollars in the county and will make several places in the road which heretofore have proved a menace to the lives of those who travel them a safe and scenic road which will prove a great advertisement for Douglas county.

The cost bill in the case of Olive F. Crow vs. Albert Abraham was filed today costs being required in the sum of \$22.50.

B. R. Clark left this afternoon for Seattle where he will visit with his brother.

Mr. and Mrs. Will Carl returned today from a two weeks' vacation trip to the mountains.

RELIEF NEEDED BADLY IN MEXICO

WASHINGTON, Aug. 11.—The train bearing Brazilian Minister Olivera from Mexico City to Vera Cruz was delayed at Apezaco as the result of an attack by Zapistas on the train preceding it. Special Agent Silliman reported to the state department, and it will be impossible for the minister to reach Vera Cruz before noon. It is reported that the minister is bringing a strong appeal from the Americans in Mexico City for speedy relief into the terrible conditions now existing in the capital city.

GERMANS CAPTURE ANOTHER FORTRESS

BERLIN, Aug. 11.—The end of the Russian line from Lomza south to Novo Georgiewsk is in full retreat, it is officially announced. The Germans have captured the fortress of Benjaminow, east of Novo Georgiewsk.

The shipment of Sears Roebuck & Co. catalogs by the H. S. French Transfer Company, was begun today and will continue for about a week. In all two car loads containing in all about 50,000 catalogs will be shipped. Each catalogue weighs 2 1/2 pounds and the total weight of the mail will be 150,000 pounds, or 75 tons. The books are being sent by parcels post.

CRISIS IS NEAR WITH MEXICO

Carranza Asks That Revolution be Allowed to Take Its Course.

"HANDS OFF" WARNING SENT TO CONFEREES

Brazilian Minister Held Responsible For The Present Status of United States With Mexico.

WASHINGTON, Aug. 11.—Carranza precipitated new trouble when he sent Lansing a sharp note advising him to cease meddling with the affairs of Mexico. Simultaneously he sent messages to the Pan-American conferees notifying each that he had better keep his country out of the conference. Carranza asked the United States to permit "the revolution to take its course". Criticism of the Brazilian minister, Olivier, is voiced in the statement, which declared it may be said that he is responsible for the present status of the Mexican relations with the United States. The note to Lansing also said that Carranza thought when the Pan-American conferees started, that they would decide what faction in Mexico deserved recognition and then extend it.

Pan-American Deliberations Resumed WASHINGTON, Aug. 11.—Definite arrangements and agreement as to the steps to be taken to restore peace in Mexico, are expected to be reached by the members of the Pan-American conference which resumed their session this afternoon here. Lansing is prepared to lay before the conferees a plan that included a letter to the Mexican factional leaders, requesting them to cease their activities and agree upon a provisional president to hold the office, until a president is elected in a general election. It is believed that the plan will be endorsed without debate.

U. S. Army to Mobilize on Border. WASHINGTON, Aug. 11.—Orders concentrating all the available regulars of the United States army on the Mexican border, are expected to be issued today. Secretary of War Garrison would not discuss the situation, but he conferred with officials through whom such orders would be issued. The war secretary significantly admitted that three transports were at Galveston and one at New York, ready to sail. Presumably the vessels will sail for

Mexico, although the secretary did not so state.

Quiet at Vera Cruz.

WASHINGTON, Aug. 11.—At Vera Cruz everything is quiet. Carranza has issued a proclamation deprecating the anti-American demonstrations there, according to a special dispatch from Special Agent Silliman sent to the state department.

Wilson Takes Hand in Mexico.

CORNISH, N. H., Aug. 11.—The president is preparing a statement to the warring factions in Mexico, which will amount to an ultimatum, it is believed. He departs for Washington this afternoon. It is understood that his statement will be presented to the Pan-American conferees in New York for endorsement.

Grows Hourly Worse.

BROWNSVILLE, Texas, Aug. 11.—The Mexican border situation is becoming hourly more tense. Advice from Matamoros declared that the Mexicans intend to attack that city if the United States troops occupy Vera Cruz. Alarmed by the numerous raids, the American citizens are arming everywhere. Poses and troops and rangers are rounding up the bandits.

Use Army Only for Defense.

WASHINGTON, Aug. 11.—Excepting for defense of the American border, and the lives of foreigners and Americans in the interior, the administration does not contemplate the use of an armed force in Mexico, despite the unusual preparations, high officials state. The plan of the president is to still let Mexico settle her own problems with no further outside action than recognition and financial support of such factions as get together, and a general boycott and embargo on the shipment of arms against any group (meaning Carranzistas) which tried to exercise any arbitrary unconstitutional authority.

RUSSIANS REMOVE VALUABLE RECORDS

PETROGRAD, Aug. 11.—It is believed that the government documents have been removed from Kovno to Bobovinsk, according to dispatches. This indicates that the Russians are prepared for an early evacuation and retirement to Vilna.

Train No. 14 was several hours late today on account of difficulties in the California district, the nature of which could not be ascertained at the local office this afternoon.

GAINS MADE IN DARDANELLES

British Public Encouraged over Reports From Fleet

MANY FRENCH TROOPS ARE LANDED

Allies Realize That Russian Government is Sorely In Need of Aid From This Source.

LONDON, Aug. 11.—The commencement of new and greater efforts to force the Dardanelles and thus bring succor to the Russians, who are still being hard pressed by the Austro-Germans in eastern Poland and the Baltic provinces and at the same time to influence the Balkan states, together with a Zepelin raid on the east coast of England, in which 14 persons were killed and 14 wounded, were the features of the war news last night.

For some time the news from the Dardanelles from the British standpoint has been more cheerful. While no details of the operations there have been given out, the public has been allowed to learn that the hope for a successful issue in the fighting on the Turkish peninsula was brighter.

The renewed attempt against the Turkish positions, which apparently is in full swing, seems to be a concerted one. Attacks are being made at the tip of the peninsula, along the Krithia road, where a gain of 200 yards on a front of 300 yards has been made, and at Sari Bair, where an important crest has been taken according to General Sir Ian Hamilton commander in chief of the British forces.

"Elsewhere," General Hamilton's report continues, "a fresh landing has been successfully effected and considerable progress made."

It was evidently a surprise to the Turks as 630 prisoners, a number of guns and a quantity of material are declared to have been taken by the British forces. A Turkish official report supplies the localities of two landings. According to this, forces were put ashore in

BOY SHOTS ARM WITH SHOT GUN

While hunting near the Lovi White ranch on South Deer creek, James McNabb, Jr., son of Rev. James McNabb, of West Roseburg, suffered an accident which may result in the loss of his right arm. He was out hunting with one of the White boys and had been carrying a large 12-gauge shot gun which he had laid down while he was resting. On starting on his tramp again he reached for the gun, at the same time kicking a stick which in turn struck the gun, discharging the full load into his arm, between the elbow and the wrist. The White boy showed great presence of mind and probably saved McNabb's life by making a rough tourniquet which in some degree shut off the flow of blood and allowed the injured lad to reach the house where an automobile brought him to Mercy hospital.

Upon examination it was found that about four inches of the small bone had been shot away while the muscle was completely gone from the elbow to within a few inches of the wrist, the charge having traveled diagonally from the wrist to the elbow.

Dr. Honek, who is in attendance stated this afternoon that he was making every effort possible to save the boy's arm, which even in case of healing, will always be badly crippled, but fears that amputation will be necessary.

James McNabb is well known in this city, having attended high school in this city several years and has many friends who are grieved to learn of his unfortunate accident.

the environs of Karachall, a town on the road which skirts the north shore of the Gulf of Saros opposite the neck of the Gallipoli peninsula, and near Ari Burnu. This latter place, although it is not shown on available maps, is believed to be at the foot of Sari Bair, just north of where the Australians are holding a strong position.

Turks Admit Success of Allies.

At Ari Burnu the Turks admit that the landing was successfully carried out, but they claim to have dispersed the troops which came ashore near Karachall. It is believed in military circles here that the landing at Karachall was only a feint to disguise the real intention of the allies, although it is said that the Turkish forces ashore of a strong force at this point might result in their working around and cutting the Turkish main line of communications with the Gallipoli peninsula.

The forcing of the Dardanelles is realized by the military critics here to be of the greatest importance, for they assert that it is the only way that the allies can render immediate aid to Russia and repay her for the great sacrifices she has made for the common cause. In addition, it is believed by the military observers that a success here would bring the Balkan states definitely over to the side of the quadruple entente powers in the war. Italy is understood to be prepared to lend a hand in the Dardanelles operations.

REJECT ADVICE FROM AUSTRIA

WASHINGTON, Aug. 11.—The United States government yesterday dispatched to Vienna a reply rejecting the Austro-Hungarian views recently set forth in a note contending that the great scale on which war munitions are being exported from America to enemies of the Germanic allies "is not in consonance with the definition of neutrality."

The note was cabled to Ambassador Penfield, who probably will present it to the Vienna foreign office Thursday. It may be made public later by agreement between two governments.

FREIGHT RATES TO BE BOOSTED

WASHINGTON, Aug. 11.—The interstate commerce commission, in a second decision concerning the request of the western railroads for a 20 per cent increase in freight rates, confirmed an increase in some rates, but not on all. Most rates were increased, and the ruling will go into effect not later than September 20.

SUBMARINES ARE WORKING OVERTIME

LONDON, Aug. 11.—A sudden renewal of activities by the German submarines is announced. The British steamers Oakwood and Rosalie, the Norwegian bark Mornia and the Russian bark Baltzer being sunk during last night.

TELEPHONE LINEMAN HAS BAD FALL FROM POLE

G. S. Carroll, a lineman in the employ of the Pacific Telephone Co., had a narrow escape from serious if not fatal injuries yesterday afternoon while working on the line on Camas mountains. In company with other workmen, Mr. Carroll was removing the wires from the pole, when these had all been removed the pole which had rotted below the ground, toppled over without a bit of warning. Fortunately for Mr. Carroll, he was working without a safety belt and he was able to jump clear of the pole. As it was he landed in a standing position and suffered nothing but a badly sprained ankle.

WITH THE NEW GERMAN DRIVE.

NEW PHOTOGRAPH FROM GERMANY. THE ABOVE SHOWS DEPARTURE OF A MILITARY TRAIN FROM POSEN FOR THE NORTH POLAND FRONT WHERE GENS. VON BUELOW AND VON HINDENBURG ARE ENGINEERING A DOUBLE DRIVE AT RUSSIA. THE POSEN GIRLS ARE GETTING THE SOLDIERS SANDWICHES AND OTHER GOOD THINGS TO EAT.
