The Fire Insurance Company of North America was founded in Philadelphia in 1792. America's oldest, has assets of \$18,613,414. E. C. Benson, agent, 491 Perkins building. 753-1f

Just to show that Looking Glass is on the map and can grow as good fruit as any other section of the county, T. R. Stokes brought in a number of early Crawford peaches to The News office this morning. They are certainly remarkable specimens of as fine peaches as ever one could wish to see. Mr. Stokes states that he will have about 500 boxes of this variety, and all as nice as the samples.

The News is under obligations to the Southern Pacific Company, through the local agent, L. B. Moore, for a very complete and comprehensive wall map of the United States, showing the entire railroad systems of the country, and the important cities and towns located on them. The map was made specially for the great S. P. Company, by Rand McNally Company, of Chicago, and the main lines of this system, as well as those under its control and operated by it are brought out in splendid relief in red.

Apples without worms. Ripe eating apples, hand picked and fine. Delivered anywhere in paved district in baskets and you get the basket. Gravensteins this week. The Overland Orchards. Phone 31F5. 832-a16

Mr. B. Hoskins, who recently returned from a two week's trip to the exposition, said he visited the Oregon building a number of times while there, and was much disappointed to find so little there with a Douglas county mark on it. He said that the exhibits from Jackson and Douglas counties were grouped together, but that almost every article was marked as being from the former county, with nothing to indicate that Douglas county had anything. This is very disappointing to the numerous visitors from this section and causes them to wonder where and to what end the money appropriated for this purpose went.
