### Protect Your Eyes by Wearing Crookes Lenses

There has for many years been a demand for a lens that would filter the rays of light entering the eye so that only such rays as are an aid to vision would reach the retina while the injurious, irritating rays would be stopped or absorbed in passing through the lens. At last after much experimenting Sir William Crookes, of England, has produced a lens which effectively stops the injurious ultra-violet rays, yet is soothing to irritable eyes and gives better illumination than ordinary lens. Crookes lens are for universal wear, indoors and out, for distance and near vision, and will often bring relief to the patient where all else fails. If you have eye trouble let us examine your eyes and have your next prescription ground on Crookes lenses.

After the ceremony a splendid wedding supper was served consisting of two courses. The happy couple were the recipients of many beautiful and useful presents. Those present were Mr. and Mrs. G. J. Bacher, little Helen Bacher, Baby George W. Bacher, Mrs. Mary Wilson, Mrs. B. F. Lohr, Miss Lohr, and Master Arthur Porter. The bride has made her home for several years past with Mr. and Mrs. Bacher and the delightful wedding was a splendid tribute to her worth and sterling character. **BARNES CIRCUS ORIGINALITY.** Many substantial claims can be made about the originality and genuine merit of the Al G. Barnes big 3-ring wild animal circus. While almost the entire performance is given by trained wild and domestic animals, the show has retained all the pomp and splendor of the old time circus. Instead of the usual, the very unusual prevails. Big, startling, thrilling acts done by the ferocious wild animals are shown in the big steel-barred arena in the center of the tent. On either side of the arena are sawdust rings in which very kind of domestic animal is presented as an actor. There are over 600 of these animal actors with the Barnes show and among them are jugglers, aerial performers, acrobats, bareback riders, high divers, dancers and musicians. Lions, bears, leopards, goats, dogs, monkeys dive from the top of the big horses and ponies, seas play musical instruments and juggle different articles with their noses, dogs and monkeys dive from the top of the big tent, elephants stand on their heads, high school horses and ponies do dances and brilliant military drills. Sixty-five different groups and ensembles of the animals are presented during the show's program. A glittering, four-band, mile-long parade is presented to the public at 10:30. Performances are given at 2 and 8 p. m. Doors are opened at 1 and 7 p. m. The date for Roseburg is Tuesday, August 31.
