EUGENE O'BRIEN

He Plays The Lead in World Film's "The Moonstone"

For one so young he has accomplished much meritorious stage work. With Ethel Barrymore in Pinero's "Mid Channel" and Margaret Hillerton "The Thief" he established himself in high favor with critical audiences. He also "led" with the late Kyra Bellow and the still happily living Henry Woodruff, Fritz Scheff, Irene Fenwick, Frances Starr and Ann Murdock.
Frank Crane, the director of the picture, regards Eugene O'Brien as a precious find, and Crane is a good judge of such matters. Frank always "casts" astutely and well.
This is Mr. O'Brien's first appearance in motion pictures. He has all the potentiality of becoming a (screen) matinee idol, as his good looks are not the least of his many assets. Chiefest of all, however, is the fact that besides being a good actor he is a good fellow. At the Majestic today.

SALTS FINE FOR ACHING KIDNEYS

We Eat Too Much Meat Which Clogs Kidneys, Then The Back Hurts.

Men folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.
A well-known local druggist says he sells lots of Jad Salts to folks

who believe in overcoming kidney trouble while it is only trouble.
Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

Columbia Supremacy

Columbia System of Changeable Needles

If a fixed or permanent point were the best method for playing records, you may be sure the Columbia Company would equip the Grafonola with a fixed point. There is nothing new about a fixed point. It is the old original method that was used on the cylinder phonographs for years which have been superseded by the Columbia Records and the changeable needles—the only method that insures a perfect reproduction in exact accord with the artists interpretations.
