DISASTROUS FIRE AT EDENBOWER LAST NIGHT

A very disastrous fire occurred at Edenbower last night when the prune drier owned by Thomas Finley was burned to the ground. The fire originated from inside the building presumably from the stove and when noticed by the residents nearby was a mass of flames. Neighbors immediately rushed to the scene and succeeded in removing some of the fruit from the burning building. They were unable, however to save the building on account of the lack of water. The drier was situated about a hundred yards from the track and was valued at about \$2,000 which was partially covered by insurance. In addition to the loss of the building several tons of fruit were also destroyed.

NOTED SOCIOLOGIST WOULD BUILD UP SUPERMAN RACE WITH EUGENICS

Establishment of a "eugenics registry," the purpose of which would be development of an "aristocracy of health" and the creation of beings possessed of superior characteristics of mind and body, was advocated by Dr. J. H. Kellogg of the Battle Creek Sanitarium, Battle Creek, Mich., before the conference on race betterment at the Panama-Pacific exposition. "The establishment of a registry for horses created a famous breed of English thoroughbreds," he said. "The object sought by the proposed eugenics registry is to accomplish for humans the same marvelous transformation, and to evolve the same betterments that have been and still are being accomplished for pigs and cattle. We have created wonderful new species of domestic animals. Why not have a new and improved species of man? "The object of a eugenics registry is to create aristocracy of health. The world needs a new aristocracy; not an artificial, blue blooded aristocracy created by wealth or official authority, but a real aristocracy made up of Apollos and Venuses and their fortunate progeny. "Instead of such an aristocracy we are actually building up an aristocracy of lunatics, idiots, paupers, and

criminals. These unfit persons already have reached the proportions of a vast multitude—500,000 lunatics, 80,000 criminals, 100,000 paupers, 90,000 idiots, 90,000 epileptics—and we are supporting these defectives in idleness like real aristocrats, at an expense of \$100,000,000 a year."
