According to the number of tickets sold to Sutherlin each week, that city has lost a great many visitors since the prohibition amendment has gone into effect. Formerly 12 or 13 tickets were sold from Roseburg to Sutherlin each day, but at present the amount seldom runs more than three or four, while several days have passed in which no

WHAT OUR NEIGHBORS IN CALIFORNIA SAY.

Pasadena, Cal.—"I want to extend to you my heartfelt thanks for the benefits derived from the use of your medicines, also for the kind and good advice obtained. I am a proud mother."

"I had been a great sufferer; three times I was given up to die—the last time being four months ago. I doctored with several doctors but obtained no relief. Was told that an operation would effect a cure, so I submitted to one, but this proved like all the medicines I had taken—not beneficial. I obtained, and started at once taking 'Favorite Prescription.'"

"Four months ago the doctors and nurse said it would be a year or more before I would be able to do my housework, and, of course, I thought so myself as I was not able to walk across the floor for several weeks. I am now able to do my housework and to care for my children and I do not feel as though I could ever thank you enough for the benefits I have received."—Mrs. MABELLE KIPP, 184 South Pasadena Ave.

Why should any woman continue to worry, to lead a miserable existence, when Dr. Pierce's Favorite Prescription is sold by druggists, in either tablet or liquid form?

Sick people are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential.

Send three dimes (or stamps) for mailing charges to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive a copy of the "Common Sense Medical Adviser," all charges prepaid.

Camel CIGARETTES

will delight your fancy in many new ways. The blend of choice Turkish and choice Domestic tobaccos does away with tongue-bite and throat-parch and leaves no unpleasant cigaretty aftertaste, no matter how many you smoke! Smokers quickly realize that the absence of coupons or premiums is due to the cost of the tobaccos. You compare Camels with any cigarette for quality, flavor, aroma; for satisfying "body"—for anything any cigarette ever did offer you! You'll prefer Camels to straight Turkish, or straight Domestic, or any cigarette you ever smoked! And Camels will not tire your taste!

The stamp placed over end seals the package, which keeps out air, thereby preserving the quality of the blended tobaccos. By inserting the fingers as illustrated, the stamp easily breaks without tearing the tin foil, which folds back into its place.

COPPER PRODUCTION SHOWS AN ENORMOUS INCREASE; GOLD ALSO MAKES GAIN

WASHINGTON, D. C. Jan. 12.—Preliminary estimates of the output of metals from Oregon mines in 1915 by the United States Geological survey, show material increases over the figures of 1914 in both gold and copper, and slight decreases in yield of silver and lead. The gold yield for 1914 was \$1,591,461 and the estimate for 1915 is \$1,771,618 which is an increase of \$180,157 for 1915. The silver output for 1914 was 142,552 ounces, and the estimate for 1915 is 136,033 ounces, or 6,519 ounces less. The yield of copper in 1914 was 39,248 pounds, while the estimate for 1915 is 910,104 pounds, an increase for 1915 of \$70,856 pounds; and the yield of lead was 16,436 pounds in 1914, as compared with 6,850 pounds in 1915, or 9,586 pounds less. These preliminary figures are compiled by Charles G. Yale, of the San Francisco office of the survey.

It is noteworthy that such material increases in output of gold and copper should be apparent when the fact is considered that the number of producing mines in Oregon has fallen off fully one-third in the past two years. Those which have dropped from the producing list, however, have been mainly small placers of various kinds where the ground has been worked out, or has failed to pay. The larger deep mines continue their productive career, with few exceptions but not many new properties of moment have of late been opened.

More capital for mine development is needed in the state, where there are few extensive properties in operation. Baker county continues to be by far the most productive county of the state, yielding annually fully 85 per cent of all the gold. The most productive deep mine in Oregon in 1915, as also for the preceding two years, was that of the Commercial Mining Company, operating the Rainbow mine in Cracker creek district, Baker county.

MERCHANTS' SMOKER FRIDAY EVENING, JANUARY 14th

A smoker will be held Friday night in the parlors of the Commercial club, and light refreshments will be served along with punch without any stick in it. Over two hundred invitations have been sent out by Secretary Benson to not only the merchants of Roseburg, but to every part of Douglas county, and it is trusted there will be a large representation of the guests from outside the city present.

The following program will be carried out: President A. C. Marsters presiding.

Annual reports—Acting Sec. E. C. Benson.

What membership in the Merchants' Association has done for me—B. W. Strong, Henry Harth, F. H. Churchill.

Camp grounds for auto tourists—Mayor Rice.

The disaster caused by the premium proposition both to merchant and customer—A. J. Liburn.

Co-Operation between farmer and Merchant—O. C. Brown.

An outlook on the immediate future of Roseburg and Douglas county—W. H. Richardson.

General discussion will be in order on any of the above subjects.

HEARING IS HELD IN CONTEMPT CASE

In an examination held before Referee Hamilton yesterday afternoon, Claude Smith, who was sometime ago ordered to purge himself of contempt of court, failed to produce the papers and answer several of the questions asked him by the district judge. In answer to nearly every question put to him he stated that he did not remember and all attempts to recall matters to his recollection failed. In regard to several promissory notes which he had held previous to filing his petition in bankruptcy he stated that he had sold three of the mto Dr. R. L. Bathrick a short time prior to the failure of the firm, the notes being discounted for 5 per cent. When asked as to what he had done with the proceeds he was unable to account for but one of them, this one being for the sum of \$253, which was collected by his attorney Elbert Herman, the exact date of the collection having slipped his mind, \$100 of which was kept by Mr. Herman \$153 being turned over to Smith.

He failed to remember what had become of the amount received by him beyond the amounts paid for doctor bills and attorney fees, which went to an attorney in Portland.

The evidence taken will be certified up to the district judge at Portland, who will pass on the question of whether or not Mr. Smith has purged himself of his contempt of court.

TRAVELING IN EUROPE EATS UP DIPLOMATS' SALARY

WASHINGTON, Jan. 12.—Traveling in these troublous times is no joke, especially for American diplomatic agents at their present rate of pay. Secretary McAdoo reported to congress in his estimate of expenditures. In many cases consuls have been forced to travel by wagon and horseback, with constant delays at junction points. McAdoo declares they are forced to pay large amounts out of their own pocket above the 5 cents a mile allowed by law.

McADOO WANTS MORE EARTH MEASUREMENT CASH

WASHINGTON, Jan. 12.—The United States broke relations of world wide scope with Germany two years ago. Secretary McAdoo has asked congress to resume them. Germany in 1889 invited the United States to aid it in securing scientific measurements of the earth. Congress annually appropriated money for this until two years ago. McAdoo suggests that the appropriation again be made.
