It's an achievement in Coffee Roasting history—a really good steel-cut, can-packed coffee at 25c the pound.

## Good Old "PLANTATION"

Coffee—25c a Pound; 3 Pounds 70c.

We want you to try it—one woman writes us, "We have tried many brands of coffee at this price, but this far exceeds them all in quality and richness." Others have told us that it is far better than any 30c or 25c coffee they have ever tried—German-American excepted. Order a can today—you're sure to be satisfied, and besides you may win a prize.

### KING GEORGE MAKES ANTI-PEACE SPEECH

British Monarch in Proving Parliament Says Cause of Civilization Must Be Vindicated First.

LONDON, Jan. 28.—King George yesterday prorogued parliament.

"We shall not lay down our arms," said King George, "until we have vindicated the cause which carries with it the future of civilization."

King George's declaration was regarded as an answer to Germany's alleged willingness to discuss peace terms "compatible with the dignity and safety of the empire."

### OREGON LABORING MEN TO OPPOSE SUNDAY CLOSING

PORTLAND, Or., Jan. 28.—Opposition to a Sunday closing law in Oregon was expressed in a resolution adopted by the state federation of labor in annual convention here yesterday. The resolution declared that such a law "is sailing under false colors as a measure providing for one day's rest in seven."

The adoption of the resolution means that the federation will seek to repeal the old Oregon Sunday blue law, recent attempts to enforce which resulted in an injunction being granted in Multnomah county staying its effectiveness until a measure to abolish it is voted on at the next general election.

Among other resolutions adopted was one opposing exemption from taxation of water power and other natural resources. Another recommends legislation to provide for the payment of interest on unpaid wages.

### MANY ARTICLES FORBIDDEN TO ENTER BRITISH ISLES

LONDON, Jan. 28.—The government has decided upon a partial prohibition of importation of many articles, in order to relieve the shipping situation, President Runciman of the board of trade announced in the house of commons yesterday. He said the whole British mercantile marine will be placed under government control.

Neutral nations, particularly the United States, from whence come most of the prohibited products, will be hardest hit.

Imports of wood pulp, glass and tobacco will be permitted to enter in limited quantities; possibly, later the government will prohibit imports of furniture, woods and other raw materials and exports of rags and other waste from which paper is made, as well as several other products.

### WOULD SINK THE U. S. NAVY IN TWO MONTHS

WASHINGTON, Jan. 28.—The American navy would be at the bottom of the sea in less than 60 days, perhaps sooner, if this country were attacked by a first class power General Leonard Wood, commander of the eastern department told the military committee yesterday.

With control of the sea lost, he said, the present mobile force could not stop the invaders, who could capture New York and the north Atlantic coast, exact tribute and drive the people to the interior, where they would be defenseless without ammunition and powder plants.

The Pacific coast, he said, is even less secure than the Atlantic against attack.

"We are living in a war era, and accumulating most of the gold, with a proportionate amount of ill will of the world. I believe we should be prepared for storms. We are menaced on all sides, and God alone can tell who our next enemy will be, and what he will do. For all I know, our next war will be with a first class power."

### MUST TAKE OFF GUNS BEFORE LEAVING PORT

WASHINGTON, Jan. 28.—The arrival of the third armed Italian merchantman, the America, at New York, brought forth the authoritative statement here yesterday that the state department has changed its position regarding the right of merchant vessels to carry guns.

This means that this government will not permit the America and the Verona, also at New York, to leave port until their guns are unshipped.

Several weeks ago the government permitted the Giuseppe Verdi to depart with its guns mounted, on assurances that they were to be used

wholly for defense.

The new decision is due to the state department's conviction that the arrival of the Verona and the America indicated that it had to deal with what apparently is a practice and not merely a few isolated cases.
