THINKS YOUNG REPUBLICAN CLUB IS GOOD IDEA

Editor News:

I read with a great deal of interest your editorial regarding the forming of a republican club and wish to state that it is a step in the right direction. Such a club should be formed at the earliest possible moment. There is important work for such an organization to do and the sooner it is perfected the better.

This is the beginning of a most important era in the political history of our nation, state and county, and by forming a strong republican club in this county the important issues

as well as the needs of the times can be discussed and debated and the best solution pointed out and the best aims attained. It is the interchange of ideas that help most in solving the great problems of the times and in no other way can we bring about the discussion of these great questions better than through the influence of a club such as has been suggested.

This country needs strong men to act as leaders and here in Douglas county we need leaders as well as elsewhere. The forming of this club will bring to the forefront men who will prove themselves fit to be the leaders of the future—they can be developed and their fitness augmented and from them we will learn much that will help the individual voter to secure the rights he or she is voting for. The question that both many new voters can be explained so that all can understand them and vote intelligently.

In a nation founded upon republican principles we should know those principles and learn what is best of the nation, state and county in which we live. Without such a club every man is left to study for himself what is best to do and the mistakes made by this method would be as the scholar would make had he to educate himself by his own efforts—and without either teachers or textbooks. If we are republicans we should at least be well enough informed to tell why we belong to the republican party.

Every republican man or woman in Douglas county should welcome such a club and join it at the first opportunity, if for no other reason than that of keeping abreast with the times and informing themselves as to the merits of every issue of the present time.

In writing this letter I am not seeking any office, not even an office in the organization and only ask to be enrolled as a private in the ranks, willing to do all and dare all in the cause of truth. I would like more light on the political situation and seek to learn what is best to do as a voter. I want to see the best men elected to all offices and the best ends of the most people served. As a lover of the right and foe forever of the wrong I wish to have the voters informed along all lines so that justice may be done.

Sincerely,
J. F. HUTCHASON.

POMONA GRANGE HOLDS SESSION

Douglas county Pomona Grange met in regular session at the Commercial club parlors today, and after a rather stormy session passed a couple of drastic resolutions, one of which was a protest against the improvement of the Pacific highway between Edenbower and Roseburg, as has been projected by the county court, until every farmer in Douglas county has a decent road leading from his farm gate to his trading center. The other was in condemnation of Governor Withycombe for the changes made in the state fair board. As no copies were made for the use of The News, they can not be given in full here today.

The afternoon session was devoted to a very interesting program consisting of music by the South Deer Creek Grange orchestra, followed by an address by R. A. Busenbark, president of the association. A song was then rendered by F. A. Goff, and R. H. Turner gave a very elaborate address on Grape Culture. Harry Romaine gave a recitation which commanded much applause, and was followed by E. C. Benson, who made an address on the cooperation between the merchants and farmers. An interesting discussion followed which was taken up by many of the members, and numerous topics of mutual interest talked over.

Two World's Records in One Day with the .22 Savage Hi-Power

AT the Bisley Matches of the British National Rifle Association—the biggest rifle match in the world—the .22 Savage Hi-Power rifle and Savage ammunition in the hands of Mr. Walter Winans on July 25, 1914, made the highest possible score on the Running Deer target—six straight 5's. This is a World's record.

On the same day, with the same rifle and ammunition, Mr. Winans made the highest possible score on the Running Wild Deer target—six straight 5's. Another World's record.

This match clinches what other shooters have wondered about the .22 Savage Hi-Power rifle's accuracy (25 rounds in a 200 yard target—more than half a mile away), long point blank range (500 yards), and its ability to make it easier to hit the game with than any other rifle.

And it has killed African Brown Bear, Grizzly, Wolf, and man-eating tigers, besides the deer. It has been the original design for.

Write us for particulars about "the biggest rifle gun in the world."
